Subject: Wetlands and Flood Zones
Date: Monday, November 2, 2020 2:09:31 PM

Hello, we are purchasing a property that has some wetlands and flood zone on it. I have read the 2021 draft and want to get an understanding around what the guideline is for disqualification. The QAP says that building within 50ft of a designated flood zone or wetland could be disqualified. If we push the setback to 60ft from the delineated flood zone or wetland would this be ok and eliminate the risk for disqualification.

Thank you!

Melanie Keller
