Reference: **Phase I Environmental Site Assessment**
Harmony at Horizon Village – 1810 Allen Benedict Court
Columbia, Richland County, South Carolina
S&ME Project No. 26610216

Dear Mr. Dew:

S&ME, Inc. (S&ME) has completed a Phase I Environmental Site Assessment (Phase I ESA) on the Harmony at Horizon Village site located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina (i.e., "subject property"). The attached report presents the findings of S&ME's Phase I ESA which was performed in accordance with ASTM E 1527-21 and S&ME Proposal No. 26610216 dated April 16, 2026. The purpose of this Phase I ESA was to identify, to the extent feasible, *recognized environmental conditions* in connection with the subject property.

ASTM E 1527-21 states that a Phase I ESA "meeting or exceeding" this practice and completed less than 180 days prior to the date of acquisition or intended transaction is presumed to be valid if the report is being relied on by the User for whom the assessment was originally prepared and the following components were completed: interviews, the regulatory review, site visit, and the declaration by the Environmental Professional responsible for the assessment. Please refer to Section 1.5 of this report for the viable start date for this Phase I ESA.

S&ME appreciates the opportunity to provide our services on this project. Please contact us at your convenience if there are questions regarding the information contained in this report.

Sincerely,

S&ME, Inc.

Dayne Tanis

Phase I Environmental Site Assessment

HARMONY AT HORIZON VILLAGE – 1810 ALLEN BENEDICT COURT COLUMBIA, RICHLAND COUNTY, SOUTH CAROLINA

Executive Summary

S&ME, Inc. (S&ME) has completed a Phase I Environmental Site Assessment (Phase I ESA) on the Harmony at Horizon Village site located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina (the "subject property"). The following executive summary is intended as an overview of the Phase I ESA, for the convenience of the reader. The complete report should be reviewed in its entirety prior to making decisions regarding this site.

The subject property is estimated to contain approximately 10.5 acres and is identified as Richland County tax parcel number R11408-03-01, currently owned by The City of Columbia Housing Authority. The subject property consists of cleared land.

According to information reviewed by S&ME, the subject property consisted of some dwellings but was divided by cross streets from at least 1903 to at least 1938. The subject property consisted of a housing complex of twenty-six individual apartment buildings and a community center building, which was constructed in the early 1940s and was demolished in 2021. The subject property is currently cleared land. The subject property is located within the northeastern and southwestern quadrants within the city block bounded by Harden Street to the west, Read Street to the north, Oak Street to the east, and Laurel Street to the south.

Adjoining properties consist of Oak Read Highrise and private residences to the north, private residences, apartments, Benedict College Oak Street Honors Dormitory, and Student Health Services to the east, Benedict College to the south, and South Carolina Heart Center, Harden Street Fire Station, and Wateree Community Counsel to the west.

S&ME contracted Lightbox to conduct an environmental database search of the subject property and the surrounding area, and Lightbox provided the EDR Radius Map Report with Geocheck® (EDR Report) as the environmental database report. The subject property was identified in the EDR Report in the FINDS, Asbestos, and ERNS databases. The EDR Report identified multiple off-site listings of potential environmental concern within the applicable search radii of the subject property.

Ms. Dayne Tanis conducted a site reconnaissance of the subject property under the direction of Environmental Professional Mr. Travis Knight of S&ME on April 24, 2026. The site reconnaissance was performed by walking accessible areas of the subject property.

This assessment did not identify recognized environmental conditions, controlled recognized environmental conditions, or significant data gaps in connection with the subject property. In addition, a Vapor Encroachment Condition (VEC) in connection with the subject property does not exist.

1.0 Introduction

S&ME conducted a Phase I ESA of the Harmony at Horizon Village site located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina (the "subject property") (**Appendix I, Figures 1-3**). The subject property is estimated to contain approximately 10.5 acres. The Phase I ESA was conducted using the ASTM International (ASTM) E 1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* and in accordance with S&ME Proposal No. 26610216 dated April 16, 2026.

1.1 Purpose

The purpose of the Phase I ESA process is to identify, pursuant to ASTM E 1527-21, *recognized environmental conditions* in connection with the subject property. It is S&ME's understanding that the Phase I ESA is being conducted as part of due diligence activities for the future transfer of title.

The following pertinent definitions to this Phase I ESA are provided in ASTM E 1527-21:

- Recognized Environmental Condition (REC) – (1) the presence of hazardous substances or petroleum products in, on, or at the subject property due to a release to the environment; (2) the likely presence of hazardous substances or petroleum products in, on, or at the subject property due to a release or likely release to the environment; or (3) the presence of hazardous substances or petroleum products in, on, or at the subject property under conditions that pose a material threat of a future release to the environment.
- *Controlled Recognized Environmental Condition* (CREC) – a *recognized environmental condition* affecting the *subject property* that has been addressed to the satisfaction of the applicable regulatory authority or authorities with *hazardous substances* or *petroleum products* allowed to remain in place subject to the implementation of required controls (for example, *activity and use limitations* or *other property use limitations*).
- *Historical Recognized Environmental Condition* (HREC) – a previous *release of hazardous substances* or *petroleum products* affecting the *subject property* that has been addressed to the satisfaction of the applicable regulatory authority or authorities and meeting unrestricted user criteria established by the applicable regulatory authority or authorities without subjecting the *subject property* to any controls (for example, *activity and use limitations* or other *property use limitations*). A *historical recognized environmental condition* is not a *recognized environmental condition*.
- *Business Environmental Risk* (BER) – a risk which can have a material environmental or environmentally driven impact on the business associated with the current or planned use of *commercial real estate*, not necessarily related to those environmental issues required to be investigated in this practice. Consideration of BER issues may involve addressing one or more non-scope-of-services considerations, some of which are identified in Section 13 of ASTM E1527-21.
- *De minimis condition* – a condition related to a *release* that generally does not present a threat to human health or the *environment* and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. A condition determined to be a *de minimis condition* is not a *recognized environmental condition* nor a *controlled recognized environmental condition*.

1.2 Detailed Scope of Services

1.2.1 ASTM E 1527-21

S&ME's approach to performing this Phase I ESA consisted of four major tasks in accordance with ASTM Standard Practice E 1527-21.

Task 1 - A review of reasonably ascertainable public records for the subject property and the immediate vicinity was conducted. This review was performed to characterize environmental features of the subject property and to identify past and present land use activities, on or in the vicinity of the subject property, which may indicate a potential for RECs. The review of the reasonably ascertainable public records included:

1. Review of federal, state, tribal, and reasonably ascertainable local public records for the subject property and immediate vicinity.
2. Review of the standard historical sources: aerial photographs, fire insurance maps, local street directories, topographic maps, building and tax department records, interviews, and other relevant standard historical sources for the subject property and adjoining properties for evidence indicating the presence of RECs in connection with the subject property.
3. Review of land title records, including a copy of the current deed, back to 1940 or first developed use, whichever is earlier, if the documents are provided to S&ME by the Phase I ESA User.

Task 2 – A site reconnaissance was performed to identify visible signs of past or existing contamination on or adjacent to the subject property as visually observed from the subject property or public right-of-way. This reconnaissance was also performed to evaluate evidence found in our public record review that might indicate activities resulting in hazardous substances or petroleum products being used or deposited on the subject property. The site reconnaissance included the following activities:

1. A reconnaissance of the subject property and adjacent properties was performed to look for evidence of current and past property uses, signs of spills, stressed vegetation, buried waste, underground or above ground storage tanks (USTs or ASTs), subsidence, transformers, or unusual soil discoloration which may indicate the possible presence of contaminants on the properties.
2. The site reconnaissance involved a viewing of the periphery of the subject property and a walk-through of accessible areas of the site interior.
3. Areas of the subject property were photographed to document the current use(s) of the subject property, as well as conditions such as unusually discolored soil, stressed vegetation, or other significant features associated with the subject property.

Task 3 – Interviews with past and present property owners (if available), operators, occupants and appropriate local officials were conducted to consider any local knowledge of hazardous substances or petroleum products on the subject property or on adjacent properties.

Task 4 – Report preparation.

1.2.2 Exclusions from and Additions to Scope of Services

Unless specifically authorized as an addition to the Phase I ESA work scope, the assessment does not include sampling of environmental media (i.e., soil, surface water, soil gas, groundwater, or air). In addition, unless specifically authorized, the Phase I ESA scope of services does not include ASTM E1527-21 non-scope considerations, including but not limited to:

- assessment of business risk issues such as asbestos-containing materials (ACMs).
- biological agents, cultural/historic resources.
- ecological resources.
- endangered species.
- health/safety.
- regulatory compliance.
- indoor air quality including any assessment of vapor intrusion, with the exception of the Vapor Encroachment Screening as discussed in Section 4.6.
- industrial hygiene; lead-based paint (LBP).
- lead in drinking water.
- mold, fungi or bacteria in buildings.
- polychlorinated biphenyls (PCBs).
- naturally occurring radon.
- substances not defined as hazardous substances per 40 CFR 312.
- or wetlands.

1.3 Significant Assumptions

Information obtained from the Client, the Client's representatives, individuals interviewed, and prior environmental reports was considered to be accurate unless S&ME's reasonable inquiries clearly revealed otherwise.

The groundwater within the local geologic province is typically contained in an unconfined (water table) aquifer. The slope of the water table under static conditions (no pumping interference) often approximates the land surface topography. Thus, the interpreted groundwater flow direction is assumed to be approximately the same as the topography of the ground surface. Perennial surface waters (creeks, streams, rivers, ponds, etc.) are assumed to act as discharge features for groundwater flow.

1.4 Limitations and Exceptions of Assessment

The Phase I ESA was conducted using ASTM E 1527-21. The findings of this report are applicable, and representative of conditions encountered at the subject property on the date of this assessment and may not represent conditions at a later date. The review of public records was limited to that information which was available to S&ME at the time this report was prepared. Interviews with local and state government authorities were limited to those people whom S&ME was able to contact during the preparation of this report. Information was derived from "reasonably ascertainable" and "practically reviewable" sources in compliance with our understanding of the standards set forth by ASTM E 1527-21.

The historical review failed to document subject property use in approximately five-year intervals back to its first developed use, or back to 1940, whichever is earlier, as historical resources for these periods were not reasonably attainable (i.e., data failure).

Unless provided by the User, land title and judicial records were not reviewed for environmental liens or activity and use limitations (AULs) by S&ME.

1.5 User Reliance

The User of this report is The Benoit Group, LLC. Use of this report by third parties will be at such party's sole risk except when granted under written permission by S&ME. Any such authorized use or reliance by third parties will be at the sole discretion of S&ME and subject to the same Agreement under which the work was conducted for the User.

The additional party's use and reliance on the report will be subject to the same rights, obligations, and limitations imposed on the User by our Agreement, unless otherwise agreed; however, the total liability of S&ME to all parties of the Phase I ESA shall be limited to the remedies and amounts as provided in the Agreement as a single contract. The additional party's use and reliance on the report shall signify the additional party's agreement to be bound by the proposal and contract that make up the Agreement between S&ME and the User.

According to standards set forth by ASTM E 1527-21, certain components of the Phase I ESA will expire 180 days from the date of initiation of that component and will therefore require updating if the date of use exceeds these time periods. The following table lists the dates of initiation for pertinent components on this assessment:

Table 1-1 – Dates of Initiation for Phase I ESA Components

Component	Date of Initiation
Environmental Database Search	April 20, 2026
Site Reconnaissance	April 24, 2026
Interviews	April 28, 2026
Environmental Lien Search	Not Provided
Environmental Professional Declaration	Date of Report

2.0 General Site Description

2.1 Site Location

The subject property is a 10.5-acre portion of the former Allen Benedict Court housing complex located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina. The subject property is located within the northeastern and southwestern quadrants of the block bounded by Harden Street to the west, Read Street to the north, Oak Street to the east, and Laurel Street to the south. The location of the subject property is shown on **Figures 1-3** in **Appendix I.**

The following table summarizes the information associated with the tax parcels that comprise the subject property:

Table 2-1 – Tax Parcel Information

Parcel ID	Acreage	Street Address	Owners
R11408-03-01	10.5	1810 Allen Benedict Court	The City of Columbia Housing Authority

2.2 Site and Vicinity Characteristics

The subject property is located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina. The subject property consists of cleared land. Property usage in surrounding areas of the subject property includes Benedict College and associated campus buildings, various medical practices, professional offices, and residential parcels.

3.0 User-Provided Information

Certain information identified in ASTM E 1527-21 is to be provided by the User of this report. S&ME provided a User Questionnaire with our proposal, and the questionnaire was completed on April 21, 2026, by Mr. Torian R. Priestly of The Benoit Group. A copy of the completed User Questionnaire is included in **Appendix VI**.

3.1 Title Records

The User did not provide S&ME with title records for review.

3.2 Environmental Liens or Activity and Use Limitations

Review of AULs and environmental liens by the Environmental Professional can help in determining if a REC is associated with the subject property. AULs can include both institutional and engineering controls and are often recorded in land title records in the restrictions of record rather than a typical chain-of-title or title abstract. According to ASTM E 1527-21, the User is responsible for providing land title (federal, state, tribal, and local) records that describe environmental liens or AULs back to 1980.

Mr. Priestly indicated on the User Questionnaire that he was not aware of AULs or liens against the subject property.

3.3 Specialized Knowledge

Mr. Priestly indicated on the User Questionnaire that he did not have specialized knowledge that is material to RECs identified in connection with the subject property.

3.4 Commonly Known or Reasonably Ascertainable Information

No commonly known or reasonably ascertainable information about the subject property within the local community that was material to RECs in connection with the subject property was reported to S&ME on the User Questionnaire by Mr. Priestly .

3.5 Valuation Reduction for Environmental Issues

Mr. Priestly indicated on the User Questionnaire that this Phase I ESA was being conducted for due diligence for 9% tax credit application for multifamily affordable housing. He indicated no purchase is occurring.

3.6 Owner, Property Manager, and Occupant Information

According to Richland County property records, the owner of TMS# R11408-03-01 is The City of Columbia Housing Authority. LuCinda Herrera, Chief Development Officer of the Columbia Housing Authority, is the owner representative as provided by the User. The subject property is currently vacant.

3.7 Reason for Performing the Phase I ESA

This Phase I ESA is being conducted as part of due diligence services for a 9% tax credit application for multifamily affordable housing associated with the subject property. The purpose of the Phase I ESA is to identify, pursuant to ASTM E 1527-21, RECs, CRECs, and HRECs in connection with the subject property.

3.8 Other

Mr. Priestly did not provide additional information on the subject property on the User Questionnaire.

4.0 Records Review

This section summarizes records obtained and reviewed to help identify RECs, and CRECs in connection with the subject property.

4.1 Standard Environmental Record Sources

S&ME reviewed selected federal and state regulatory lists within an *approximate minimum search distance* of the subject property, as defined by ASTM E 1527-21. The reviewed lists were compiled by LightBox into the EDR Report, which is included in **Appendix II**. The EDR Report includes a listing of the databases, search distances, an

explanation of each database, and figures depicting the approximate locations of regulated facilities identified in the vicinity of the subject property. Regulatory listings are limited and include only those facilities or incidents that are known to the federal and state agencies at the time of publication of various agency databases, as indicated in the EDR Report.

Facilities with records pertaining to hazardous substance or petroleum products within ASTM-specified search distances were listed including the subject property. Sites in proximity to the subject property are summarized in Table 4-1:

Table 4-1 Database Search Results Summary (Standard Records Sources)

Facility	Location Direction/Distance Topographic Relationship	Record	Comment
Allen Benedict Buildings	Target Property	FINDS, Asbestos	Multiple asbestos removal permits are listed throughout 2020 and 2021 in connection with building demolitions. **Not a REC.**
1810 Allen Benedict Court	Target Property	ERNS	Database description indicates that the fire department responded to the subject property for two resident deaths in two separate apartments and natural gas was reported in the two apartments. **Not a REC.**
Oak Read High Rise	2211 Read St. 115 ft. N Down-gradient	UST	Facility ID 07324. One 560-gallon diesel fuel UST listed as abandoned. See section 4.1.1. **Not a REC.**
Scott Service Station	2000 Harden St. 132 ft. WNW Down-gradient	LUST, UST	Facility ID 16681. Petroleum release reported July 1995 with NFA date January 2005. Groundwater flow reported to the south. Two, 3,000-gallon gasoline USTs listed as abandoned. **Not a REC.**
Richardson Citgo	2000 Harden St. 132 ft. WNW Down-gradient	EDR Hist Auto	Listed as automotive repair shop and gas station from 1986 to 1993. **Not a REC.**
Benedict College	2315 Laurel St. 284 ft. ESE Up-gradient	E Manifest	No additional information provided. **Not a REC.**

Facility	Location Direction/Distance Topographic Relationship	Record	Comment
Columbia Region MSSA	340 ft. SSE Up-gradient	FUDS	Not on NPL. **Not a REC.**
Columbia Fire Dept Harden St	1901 Harden St. 412 ft. W Up-gradient	LUST, UST, RCR, GWCI, UIC	Facility ID 07329. Petroleum release reported June 1993 with NFA date February 2005. Groundwater flow reported north. One abandoned 280-gallon gasoline UST. **Not a REC.**
STIER Supply Co	2015 Blanding St. 502 ft. SSW Up-gradient	LUST, UST, RCR, GWCI	Facility ID 14295. Petroleum release reported December 1991 with NFA date May 2007. One 1,000-gallon gasoline UST listed as abandoned. **Not a REC.**
Columbia Housing Authority	1917 Harden St. 553 ft. W Down-gradient	LUST, UST	Facility ID 07322. Petroleum release reported December 1991 with NFA date May 2000. One 5,000-gallon gasoline UST listed as abandoned. **Not a REC.**
Four Corners	2013 Harden St. 564 ft. WNW Down-gradient	UST, Financial Assurance	One 10,000-gallon gasoline regular unleaded (RUL) UST listed as extended out-of-use and one 8,000-gallon gasoline super/premium UST listed as extended out-of-use. **Not a REC.**
P&K Enterprises Inc	2013 Harden St. 564 ft. WNW Down-gradient	LUST, UST, RCR, GWCI	Facility ID 07924. Petroleum release reported December 1991 with NFA date August 2012. Groundwater flow reported to the NE. Six gasoline USTs of various capacities listed as abandoned. Conducting investigation/risk assessment for GWCI. **Not a REC.**

Multiple additional facilities were listed within ASTM-specified search distances on the EDR database. Based on spatial distance, apparent direction of groundwater flow, and or regulatory status, this site does not appear to pose a material threat of contamination to the subject property.

4.1.1 Regulatory File Review

S&ME searched the South Carolina Department of Environmental Services UST registry for the Oak Read High Rise, Facility ID 07324. According to the SCDES UST registry, a release was reported August 1992 with No Further Action (NFA) date of August 1992.

S&ME submitted a Freedom of Information Act (FOI) request to the South Carolina Department of Environmental Services (SCDES) for the nearby property listing for the facilities located at 2000 Harden Street and 1901 Harden St. At this time, no response has been received.

Relevant documentation is provided in **Appendix VII**.

4.2 Additional Environmental Record Sources

4.2.1 EDR Supplementary Sources

The EDR Report includes additional environmental records not listed among the standard federal, state, and tribal databases, such as historical auto stations, historical dry cleaners, and manufactured gas plants.

No additional or supplementary environmental records were listed in the EDR Report.

4.2.2 Tribal Record Sources

The EDR Report did not reveal listings of tribal environmental records.

4.2.3 Other Record Sources

- A search of the Environmental Protection Agency (EPA) Envirofacts database (https://enviro.epa.gov/) was conducted. No other information was available.
- U.S. Environmental Protection Agency: https://www.epa.gov/pfas.

  On May 8, 2024, the United States Environmental Protection Agency (EPA) published a final rule designating two per- and polyfluoroalkyl substances (PFAS) – perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS) – as CERCLA hazardous substances. The final rule became effective on July 8, 2024. Based on this action by EPA, Phase I ESAs completed in accordance with ASTM E1527-21 after July 8, 2024, must include PFOA and/or PFOS during the evaluation of RECs.

  Potential sources of PFAS can include (but not limited to) chrome plating facilities, textile and leather production, electronics manufacturing, automotive and machinery maintenance, oil refineries, and aerospace facilities.

During our review of available resources, consideration for the potential impact of PFOA and PFOS to the subject property was assessed. It is the opinion of the Environmental Professional that based on the current and historical uses of the subject property, adjoining and surrounding properties, the likelihood of PFOA and PFOS impacts to the subject property is low and therefore does not constitute a REC.

No additional records were reviewed during this Phase I ESA.

4.3 Physical Setting Sources

Physical setting sources were reviewed to provide information about the geology and hydrogeology of the area of the subject property.

Surface Drainage and Soil

Based upon a review of the topographic map, it appears that the subject property is generally sloping north (see **Figure 2,** United States Geological Survey [USGS] Topographic Map, **Appendix I**). The subject property has an estimated surface elevation of approximately 260 feet above mean sea level.

The United States Department of Agriculture (USDA) Soil Survey website was reviewed to identify the soil type underlying the subject property. A review of the information presented on the website indicated that the majority of the subject property is underlain by the following soils:

Table 4-3 – Site Soils

Soil Series	Drainage
Urban land	Variable

Bedrock

Bedrock was not observed on the subject property.

Hydrogeology

According to The Geology of the Carolinas, (Horton, Jr. J. Wright and Victor A. Zullo, University of Tennessee Press, 1991), the subject property lies within the upper Coastal Plain Physiographic Province of South Carolina. The Coastal Plain consists of unconsolidated sands, silts, and clays of the Pleistocene epoch. During this time, the ocean retreated over the land and left formations and terraces indicating former shorelines. The parent material of most of the soils is marine or fluvial deposits. The sedimentary beds of the Coastal Plain overlap each other in the sequence they were lain down and slope gently to the coast.

In the Coastal Plain, the soils typically have moderate to rapid permeability; thus readily transmitting groundwater. The movement of groundwater through the sands and clays is strongly influenced by topography which generally controls the location of recharge and discharge zones. Groundwater within the Coastal Plain generally moves from

topographically high areas (recharge zones) to topographically low areas within and along stream valleys (discharge areas).

4.4 Historical Use Information on the Subject Property

S&ME reviewed historical use information from LightBox and other sources as part of this Phase I ESA. The following documents were reviewed:

- Aerial Photographs for the years 1938, 1943, 1951, 1955, 1964, 1966, 1971, 1981, 1983, 1994, 2006, 2011, 2015, 2019, and 2023.
- Google Earth aerial photographs for the years 2002, 2003, 2004, 2005, 2010, 2012, 2013, 2014, 2016, 2017, 2018, 2020, 2021, 2022, 2024, and 2025.
- World Imagery Aerial for the year 2025.
- Historical Sanborn Fire Insurance Maps for the years 1888, 1893, 1898, 1904, 1910, 1919, 1950, 1956, 1965, and 1969.
- Local Street Directories for the years 1903, 1906, 1911, 1916, 1921, 1926, 1930, 1935, 1940, 1945, 1949, 1954, 1959, 1964, 1970, 1973, 1975, 1980, 1985, 1989, 1990, 1992, 1995, 2000, 2005, 2010, 2014, 2017, 2022, and 2024.
- Topographic maps for the years 1904, 1947, 1948, 1972, 1981, 1990, 1997, 2014, 2017, 2020, and 2024.
- Building Records.
- Zoning/Land Use Records. According to the Property Card the subject property is zoned Mixed-Use (MU-2).
- Land Title Records. According to the Property Card the subject property is currently owned by The City of Columbia Housing Authority.
- Property Tax Files. Tax information is provided on the Property Card.

Historical information is included in **Appendix III**. S&ME's historical document review findings for the subject property are presented in the following table.

Table 4-4 – Historical Use Summary Table (On-site)

Listing/Observed Feature	Years Found for this Listing	Source(s)
The subject property consists of some dwellings but is divided by cross streets.	1903-1938	Sanborn Maps, Aerial Photographs, Topographic Maps, City Directories
The subject property consists of 15 housing units and a central green or recreation area.	1943-2020	Aerial Photographs, Sanborn Maps, Topographic Maps
Demolition of the housing units is visible in 2021.	2021-2022	Aerial Photographs
The subject property consists of cleared land with sparse tree cover.	2023-2025	Aerial Photographs

4.5 Historical Use Information on Adjoining Properties

Historical information including the above-referenced resources were reviewed to assess off-site historical land uses. S&ME's historical document review findings for adjoining properties are presented in the following table.

Table 4-5 – Historical Use Summary Table (Adjoining and Area)

Listing/Observed Feature	Years Found for this Listing	Source(s)
Read St. is visible along the north boundary of the subject property. Oak St. is visible along the east boundary. Laurel St. is visible to the south of the subject property. Harden St. is visible to the west of the subject property. The north and east adjoining properties are private dwellings. Private dwellings listed in 1903 city directory on east adjoining property. The south adjoining property is private dwellings followed by cleared land. A coal trestle and wagon warehouse and stable are depicted on west adjoining property.	1903-1943	Sanborn Maps, Aerial Photographs, City Directories
The adjoining properties (N, E) appear similar to the 1943 aerial. Benedict College gym and dormitory are visible on south adjoining property. Automobile garage depicted on west adjoining property on 1950 Sanborn.	1950	Sanborn Map
The adjoining properties (N, E, S) appear similar to the 1950 Sanborn Map. City building visible on west adjoining property. Structure on corner of Harden St. and Laurel St. depicted.	1951	Aerial Photographs
The adjoining properties (N, E, S) appear similar to the 1951 aerial. Fire department structure visible on west adjoining property.	1955-1964	Aerial Photographs
The adjoining properties (E, S, W) appear similar to the 1964 aerial. The north adjoining property consists of cleared land and some private residences.	1966	Aerial Photographs
The adjoining properties (E, S, W) appear similar to the 1966 aerial. The Read St. Apartments are visible on the north adjoining property.	1969	Sanborn Maps
The adjoining properties (N, E, S) appear similar to the 1969 Sanborn Map. The coal trestle is not visible on west adjoining property.	1971-1983	Aerial Photographs
The adjoining properties (N, E, S) appear similar to the 1983 aerial. Structure that is currently occupied by South Carolina Heart Center on corner of Harden and Laurel is much larger and contains paved lot since at least 1994.	1994-2002	Aerial Photographs
The adjoining properties (N, S, W) appear similar to the 2002 aerial. The Benedict College Oak Street Honors Dormitory is visible on the east adjoining property.	2003-2025	Aerial Photographs

4.6 Vapor Encroachment Screening

A Vapor Encroachment Screening (VES) of identified potential contaminant sources was performed as part of this Phase I ESA. The conclusions of the VES indicate that a Vapor Encroachment Condition (VEC) does not exist in connection to the subject property. The VES completed by S&ME is provided in **Appendix IV**.

5.0 Site Reconnaissance

The site reconnaissance was performed by Ms. Dayne Tanis of S&ME under the direction of Environmental Professional Mr. Travis Knight of S&ME on April 24, 2026. Representative photographs of the subject property and the Site Reconnaissance Checklist are included in **Appendix V**.

5.1 Methodology and Limiting Conditions

The purpose of the site reconnaissance is to obtain information indicating the likelihood of identifying RECs in connection with the subject property. The site reconnaissance was performed by walking accessible areas of the subject property.

5.2 General Site Setting

5.2.1 Current Use(s) of the Subject Property

The subject property consists of cleared land (Photographs 1-2).

5.2.2 Past Use(s) of the Subject Property

No indications of past use of the subject property were observed during the site reconnaissance.

5.2.3 Current Use(s) of Adjoining and Surrounding Properties

The current uses of the adjoining properties were identified to the extent that they were visually observed from the subject property during our field reconnaissance or during interviews or in the records review. Descriptions of adjoining properties are provided below:

- **North**: Oak Read Highrise and private residences (Photographs 3 & 4).
- **East**: Private residences, apartments, Benedict College Oak Street Honors Dormitory, Student Health Services (Photographs 5 & 6).
- **South**: Benedict College (Photographs 7 & 8).
- **West**: South Carolina Heart Center, Harden Street Fire Station, Wateree Community Counsel (Photograph 9).

5.2.4 Past Use(s) of Adjoining and Surrounding Properties

According to the City Directories from 1952-1995, there were several service stations listed on the northern adjoining property. Taylor Radiator Service was listed in City Directory from 1985-1995 on the

northern adjoining property. Harden Street Citgo Service Station was listed in the City Directory from 1970-1980 on the northern adjoining property. The 1952 City Directory listed Blue Ribbon Service Station on the north adjoining property, located at 2000 Harden Street. No evidence of these businesses exists and the properties have been redeveloped.

5.2.5 Geologic, Hydrogeologic, Hydrologic, and Topographic Conditions

The subject property has some hills with an overall slope to the north. Site soils observed consisted of sandy silts.

5.2.6 Description of Structures and Roads

There are no structures or roads remaining on the subject property.

5.2.7 Potable Water Supply and Sewage Disposal System

The subject property is accessible to the City of Columbia water and sewer. Evidence of water supply wells or septic systems were not observed on the subject property.

5.3 Exterior Observations

Exterior observations from the site reconnaissance are summarized in the following table.

Table 5-1 – General Exterior Observations

Description	Reported or Observed On-site (Y/N)	Comments (Noteworthy observations are further discussed below the table)
Hazardous Substances and Petroleum Products	N	
Underground Storage Tanks (USTs)	N	
Aboveground Storage Tanks (ASTs)	N	
Oil/Water Separators	N	
Strong, Pungent, or Noxious Odors	N	
Drums, Barrels and/or Containers > 5 Gallons	N	
Unidentified Substance Containers	N	
Potential Polychlorinated Biphenyls (PCB)-Containing Equipment	N	
Hydraulic Equipment	N	
Utilities and Stormwater Management	Y	Several storm water drains were observed on the subject property. (Photograph 12)

Description	Reported or Observed On-site (Y/N)	Comments (Noteworthy observations are further discussed below the table)
Pits, Ponds, Lagoons, and Surface Waters	N	
Surface Water Discoloration, Sheen, or Free Product	N	
Stained Soil or Pavement	N	
Stressed Vegetation	N	
Solid Waste	N	
Process/industrial Wastewater Discharges	N	
Wells	N	
Septic Systems	N	
Heating/Cooling	N	
Drains and Sumps	N	
Other	N	Fire hydrant observed in center of site (Photograph 10). Silt fence located in center of property (Photograph 11).

5.4 Interior Observations

No structures are present on the subject property, therefore no interior observations were made.

Table 5-2 – General Interior Observations

Description	Reported or Observed On-site (Y/N)	Comments (Noteworthy observations are further discussed below the table)
Hazardous Substances and Petroleum Products	N	
USTs	N	
ASTs	N	
Oil/Water Separators	N	
Strong, Pungent, or Noxious Odors	N	
Pools of Liquid	N	
Drums, Barrels and/or Containers > 5 Gallons	N	
Unidentified Substance Containers	N	

Description	Reported or Observed On-site (Y/N)	Comments (Noteworthy observations are further discussed below the table)
Potential PCB-Containing Equipment	N	
Hydraulic Equipment	N	
Contracted Maintenance Services	N	
Stained Surfaces	N	
Solid Waste	N	
Drains and Sumps	N	
Other	N	

6.0 Interviews

S&ME contacted individuals and local authorities that may have information concerning existing conditions, activities, and history of the subject property and off-site facilities. Brief summaries of the information from those interviews are discussed below. Copies of interview documentation are included in **Appendix VI**.

6.1 Interview with Past and Present Owners

On April 28, 2026, Ms. LuCinda Herrera of The City of Columbia Housing Authority completed the Questionnaire as part of this assessment. Ms. Herrera is the current property owner representative. Ms. Herrera provided the following information regarding the subject property:

- The subject property is currently vacant but was previously used as a public housing site built in 1940.
- The subject property is currently accessible to public water and sewer.
- There is not or was a septic system on the subject property.
- There is currently a Declaration of Trust recorded from HUD recorded on the property, but according to Ms. Herrera this will be released prior to the closing of the new properties.
- She was not aware of USTs, ASTs, AULs, environmental liens, or other contamination issues on the subject property.
- The property is not being purchased, the Housing Authority will provide a long term ground lease at minimal cost.

6.2 Interview with Key Site Manager

See Section 6.1.

6.3 Interview with Occupants

The subject property is currently vacant.

6.4 Interview with Local Government Officials

On April 24, 2026, S&ME contacted the Columbia-Richland Fire Department concerning potential past hazardous material responses at the subject property via telephone call (803-545-3700). Anissa at the front desk stated that no records populated for the subject property from 2023 to present day. S&ME subsequently submitted an FOIA request to the City of Columbia at the direction of Anissa, at this time, no response has been received regarding this matter.

6.5 Interviews with Others

No other interviews were performed for this Phase I ESA.

Findings and Opinions

The results of the Phase I ESA are summarized in the following sections.

6.6 On-Site Findings

No on-site findings of environmental concern were identified.

6.7 Off-Site Findings

The following off-site findings were identified during this assessment:

- Multiple off-site listings of potential environmental concern were identified in the EDR Radius Report.

6.8 On-Site Opinions

No RECs were identified on the subject property.

6.9 Off-Site Opinions

The following opinion is provided concerning the off-site findings of this assessment:

- The off-site EDR listings **are not considered RECs** in connection with the subject property due to their regulatory listings, distance from the subject property, the information in the EDR Report, and/or the topographic relationship with the subject property. In addition, a VEC in connection with the subject property does not exist.

6.10 Data Gaps

The following data gaps were identified during this assessment:

- Land title and judicial records were not reviewed for environmental liens or AULs; however, the Client reported no knowledge of environmental liens or AULs.
- The historical review failed to document property use in approximately five-year intervals back to its first developed use, or back to 1940, whichever is earlier (i.e., data failure). See **Section 4.4** of this report for more details on historical information.
- Lack of an interview with a government official.

These data gaps **are not considered significant** to our ability to identify RECs in connection with the subject property.

7.0 Conclusions

S&ME has performed a Phase I ESA in conformance with the scope and limitations of ASTM E 1527-21 of the Harmony at Horizon Village site located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina. Exceptions to or deletions from this practice are described in **Section 1.4** and **Section 8.0** of this report.

This Phase I ESA did not identify RECs, CRECs, or significant data gaps in connection with the subject property.

Based on the information obtained and the findings of this assessment, it is the opinion of the Environmental Professional that further assessment is not warranted.

8.0 Deviations

No deviations from the standard were made.

9.0 Additional Services

No additional services were performed by S&ME.

10.0 References

Material references are cited within the report text, unless listed below.

11.0 Signature(s) of Environmental Professional(s)

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312, and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Travis Knight, CSP, CHMM
Project Manager/EP
tknight@smeinc.com

Tom Behnke, P.G., CHMM
Senior Hydrogeologist/Senior Reviewer
tbehnke@smeinc.com

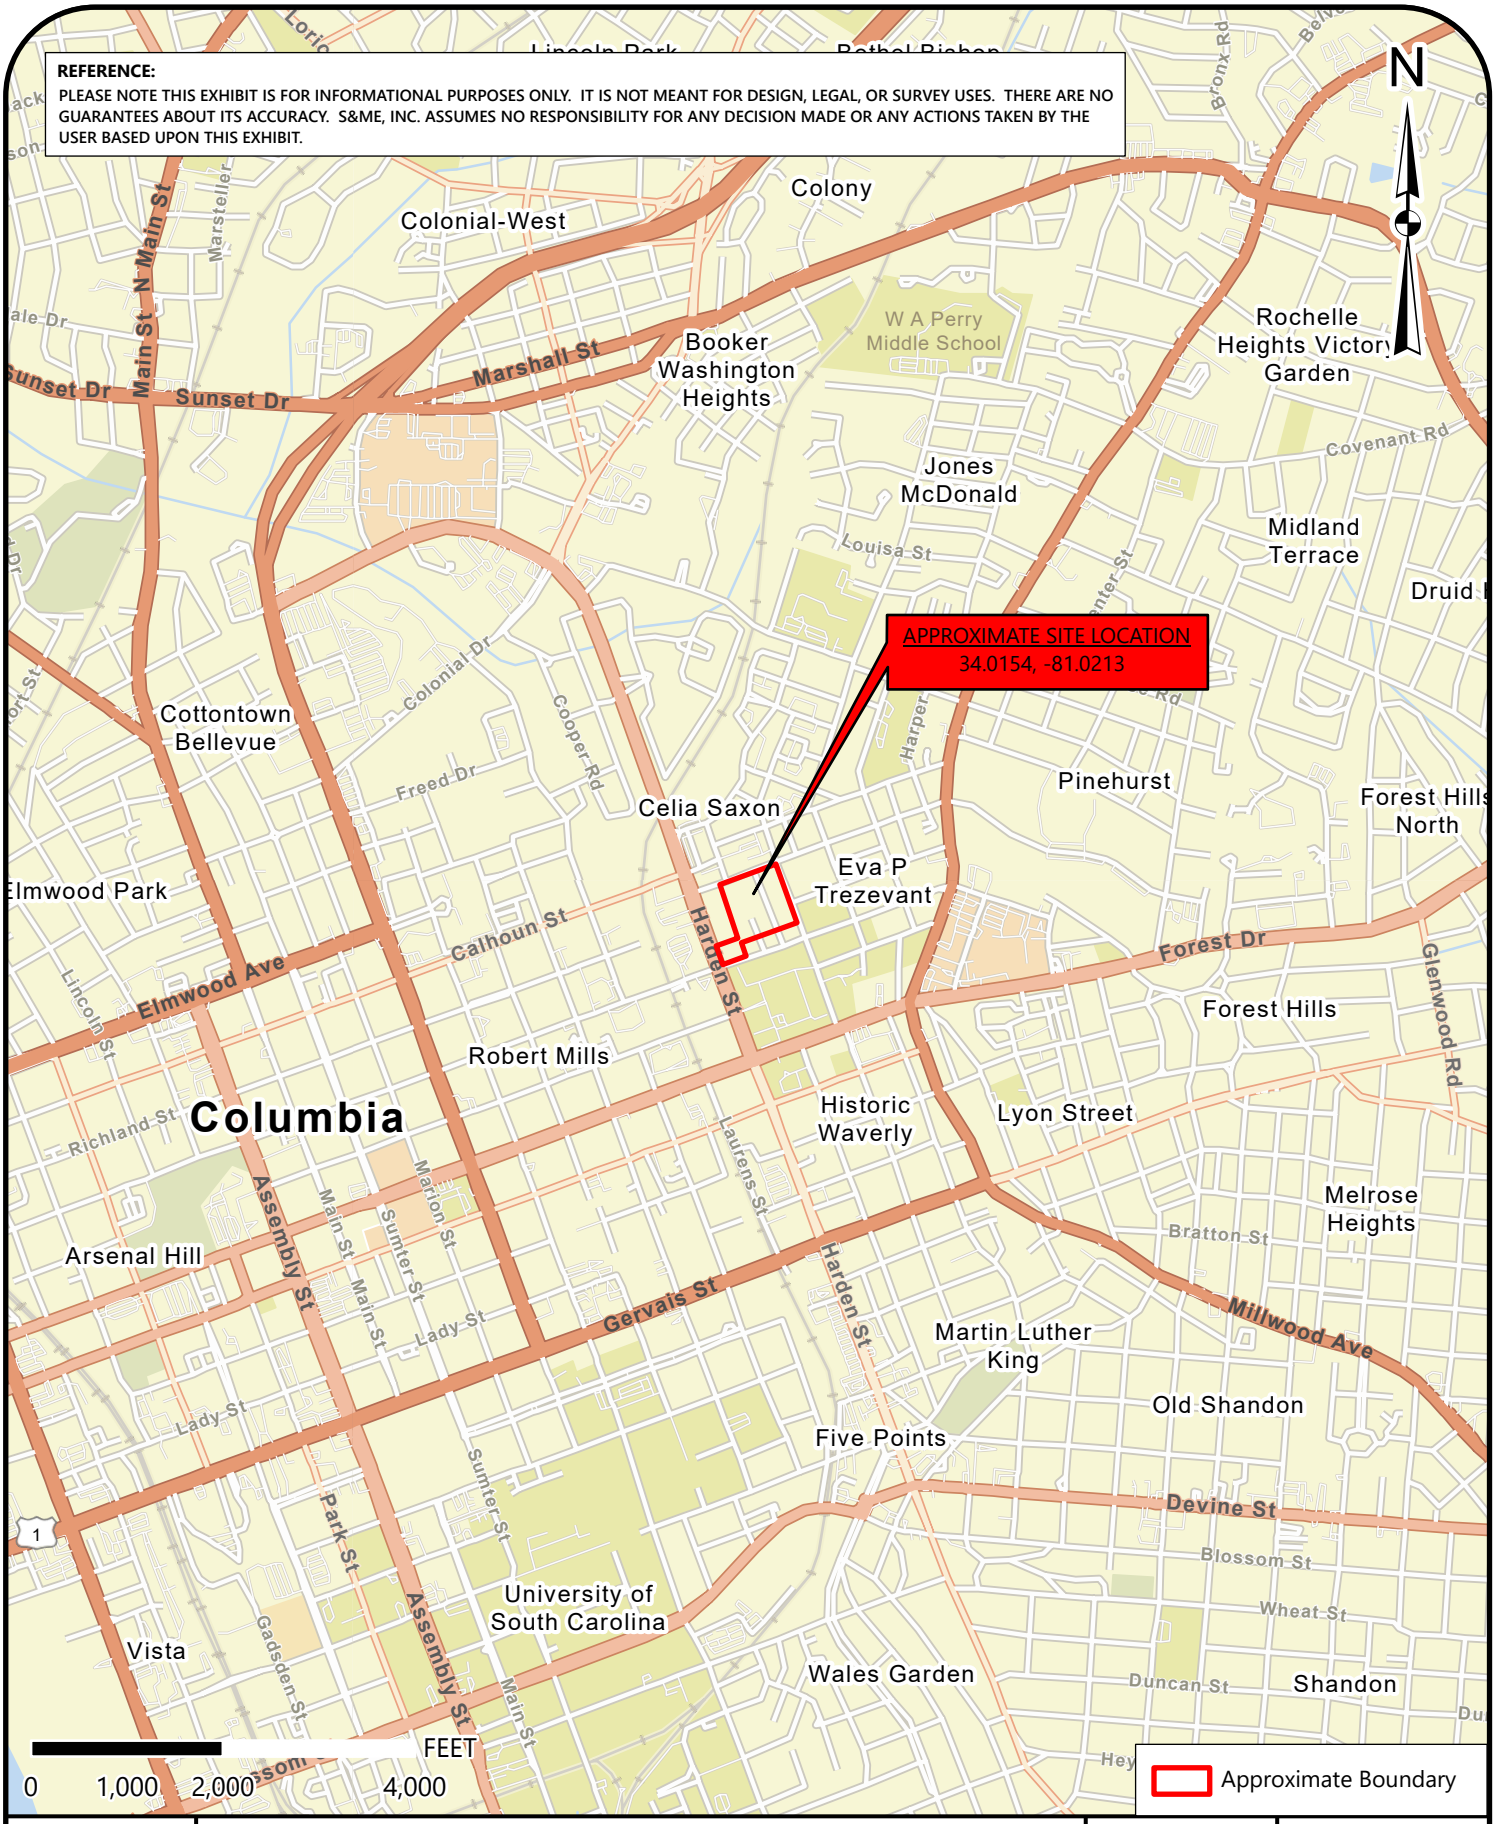

12.0 Qualification(s) of Environmental Professional(s)

S&ME delivers engineering, design, planning, environmental, and construction services for the built environment. Founded in 1973, we have grown to an 1,100-person corporation operating from 34 offices across the United States.

Qualifications of the Environmental Professionals and staff who contributed to this Phase I ESA are included in **Appendix VIII**.

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E1527 - 21), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E2247 - 23), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E1528 - 22) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal RCRA generators

RCRA-VSQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-VSQG list, as provided by EDR, and dated 11/30/2025 has revealed that there are

4 RCRA-VSQG sites within approximately 0.25 miles of the target property.

Lists of state- and tribal hazardous waste facilities

SHWS: State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

A review of the SHWS list, as provided by EDR, and dated 03/04/2025 has revealed that there are 23 SHWS sites within approximately 1 mile of the target property.

Lists of state and tribal leaking storage tanks

LUST: The Leaking Underground Storage Tank Incident Reports contain an inventory of reported leaking underground storage tank incidents. The data come from the Department of Health & Environmental Control's Leaking UST list.

A review of the LUST list, as provided by EDR, and dated 10/15/2025 has revealed that there are 29 LUST sites within approximately 0.5 miles of the target property.

Lists of state and tribal registered storage tanks

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the Department of Health & Environmental Control's list: Comprehensive Underground Storage Tanks.

A review of the UST list, as provided by EDR, and dated 10/07/2024 has revealed that there are 17 UST sites within approximately 0.25 miles of the target property.

State and tribal institutional control / engineering control registries

RCR: The Bureau of Land and Waste Management established this Registry to help monitor and maintain sites that have conditional remedies. A Conditional Remedy is an environmental remedy that includes certain qualifications. These qualifications are divided into two major categories: Remedies requiring Land Use Controls and Conditional No Further Actions.

A review of the RCR list, as provided by EDR, and dated 10/01/2024 has revealed that there are 6 RCR sites within approximately 0.5 miles of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

ALLSITES: The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

A review of the ALLSITES list, as provided by EDR, and dated 11/21/2025 has revealed that there are 2 ALLSITES sites within approximately 0.5 miles of the target property.

Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 11/30/2025 has revealed that there is 1 RCRA NonGen / NLR site within approximately 0.25 miles of the target property.

UST FINDER RELEASE: US EPA's UST Finder data is a national composite of leaking underground storage tanks. This data contains information about, and locations of, leaking underground storage tanks. Data was collected from state sources and standardized into a national profile by EPA's Office of Underground Storage Tanks, Office of Research and Development, and the Association of State and Territorial Solid Waste Management Officials.

A review of the UST FINDER RELEASE list, as provided by EDR, and dated 06/08/2023 has revealed that there are 22 UST FINDER RELEASE sites within approximately 0.5 miles of the target property.

UST FINDER: EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

A review of the UST FINDER list, as provided by EDR, and dated 06/08/2023 has revealed that there are 16 UST FINDER sites within approximately 0.25 miles of the target property.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR Hist Auto: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

A review of the EDR Hist Auto list, as provided by EDR, has revealed that there is 1 EDR Hist Auto site within approximately 0.125 miles of the target property.

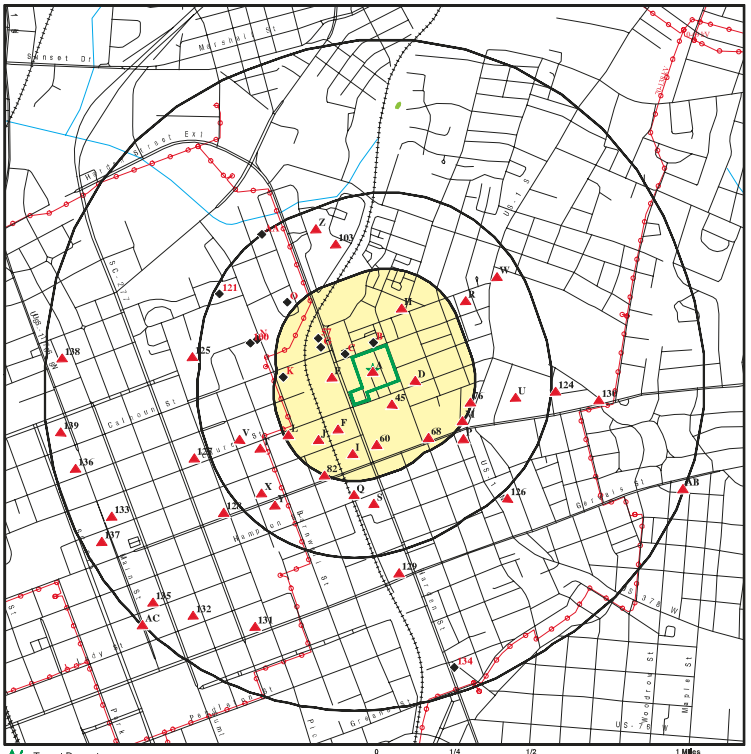

Lower Elevation	Address	Direction / Distance	Map ID	Page
RICHARDSON CITGO	2000 HARDEN STREET	WNW 0 - 1/8 (0.025 mi.)	C41	91

EXECUTIVE SUMMARY

Due to poor or inadequate address information, the following sites were not mapped. Count: 2 records.

Site Name	Database(s)
FMR ED ROBINSON LAUNDRY & DRY CLEA	SHWS, DRYCLEANERS
USC COLISEUM PARKING LOTS	SHWS

OVERVIEW MAP - 8317899.2S

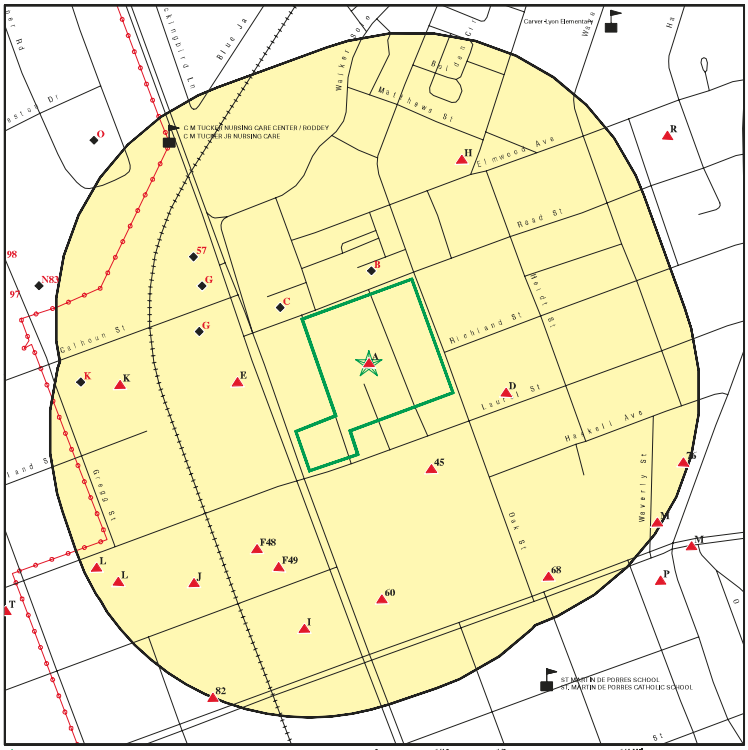

Target Property
Sites at elevations higher than or equal to the target property
Sites at elevations lower than the target property
Manufactured Gas Plants
National Priority List Sites
Dept. Defense Sites
Indian Reservations BIA
Power transmission lines
Special Flood Hazard Area (1%)
0.2% Annual Chance Flood Hazard
National Wetland Inventory
State Wetlands

Environmental Interest/Information System:
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

Environmental Interest/Information System:
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the

ANDREWS AUTO (Continued) **1004780678**

Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Environmental Interest/Information System:
The Integrated Compliance Information System (ICIS) provides a database that, when complete, will contain integrated enforcement and compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain enforcement data with a single repository for that information.

BENEDICT COLLEGE (Continued) **1000201401**

Currently, ICIS contains all Federal Administrative and Judicial enforcement actions and a subset of the Permit Compliance System (PCS), which supports the National Pollutant Discharge Elimination System (NPDES). This information is maintained in ICIS by EPA in the Regional offices and it at Headquarters. A future release of ICIS will completely replace PCS and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities that support compliance and enforcement programs, including incident tracking, compliance assistance, and compliance monitoring.
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas.
The National Pollutant Discharge Elimination System (NPDES) module of the Integrated Compliance Information System (ICIS). Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.
The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click Here for FRS Facility Detail Report:

Environmental Interest/Information System:
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Environmental Interest/Information System:
The South Carolina Department of Health and Environmental Control (DHEC) Environmental Facility Information System (SC-EFIS) integrates information on environmental facilities, permits, violations, enforcement actions, and compliance activities needed to support regulatory requirements and target environmental quality improvements for the water, air, solid waste, and hazardous waste program areas. The Resource Conservation and Recovery Act Information System (RCRAInfo) is EPA's comprehensive information system in support of the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. It tracks many types of information about generators, transporters, treaters, storers, and disposers of hazardous waste.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Lists of Federal NPL (Superfund) sites

NPL: National Priority List
National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 12/26/2025
Date Data Arrived at EDR: 01/05/2026
Date Made Active in Reports: 01/22/2026
Number of Days to Update: 17

Proposed NPL: Proposed National Priority List Sites
A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens
Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Lists of Federal Delisted NPL sites

Delisted NPL: National Priority List Deletions
The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 12/26/2025

Lists of Federal sites subject to CERCLA removals and CERCLA orders

FEDERAL FACILITY: Federal Facility Site Information listing
A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 12/10/2025

SEMS: Superfund Enterprise Management System
SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Lists of Federal CERCLA sites with NFRAP

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Lists of Federal RCRA TSD facilities

RCRA-TSDF: RCRA - Treatment, Storage and Disposal
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Lists of Federal RCRA generators

RCRA-LQG: RCRA - Large Quantity Generators
RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Lists of state- and tribal hazardous waste facilities

SHWS: Site Assessment Section Project List
State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

State and tribal institutional control / engineering control registries

RCR: Registry of Conditional Remedies
The Bureau of Land and Waste Management established this Registry to help monitor and maintain sites that have conditional remedies. A Conditional Remedy is an environmental remedy that includes certain qualifications. These qualifications are divided into two major categories: Remedies requiring Land Use Controls and Conditional No Further Actions.

Date of Government Version: 10/01/2024

AUL: Land Use Controls
The term Land Use Controls or "LUCs" encompass institutional controls, such as those involved in real estate interests, governmental permitting, zoning, public advisories, deed notices, and other legal restrictions. The term also includes restrictions on access, whether achieved by means of engineered barriers (e.g., fence or concrete pad) or by human means (e.g., the presence of security guards). Additionally, the term includes both affirmative measures to achieve the desired restrictions (e.g., night lighting of an area) and prohibitive directives (e.g., restrictions on certain types of wells for the duration of the corrective action). Considered altogether, the LUCs for a facility will provide a tool for how the property should be used in order to maintain the level of protectiveness that one or more corrective actions were designed to achieve.

VCP: Voluntary Cleanup Sites
Sites participating in the Voluntary Cleanup Program. Once staff and a non-responsible party have agreed upon an approved scope of work for a site investigation and/or remediation, the party enters into a voluntary cleanup contract. Staff oversees the cleanup efforts to ensure that activities are performed to our satisfaction. Upon completion of the negotiated work in the voluntary cleanup contract, the non-responsible party receives State Superfund liability protection.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

ALLSITES: Site Assessment & Remediation Public Record Database
The South Carolina Department of Health and Environmental Control is pleased to have the Public Record for your review. The purpose of this database is two-fold. First, it will provide to communities another form of notice of cleanup activity, allowing them to have more information about assessment and cleanup activities in their area and in the State. Second, it can assist those seeking to redevelop brownfield properties within South Carolina.

US CDL: Clandestine Drug Labs
A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

EPA WATCH LIST: EPA Watch List
EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List
The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System
RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

UMTRA: Uranium Mill Tailings Sites
Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)
The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines
An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

PFAS RCRA MANIFEST: PFAS Transfers Identified In the RCRA Database Listing
To work around the lack of PFAS waste codes in the RCRA database, EPA developed the PFAS Transfers dataset by mining e-Manifest records containing at least one of these common PFAS keywords: PFAS, PFOA, PFOS, PERFL, AFFF, GENX, GEN-X (plus the VT waste codes). These keywords were searched for in the following text fields: Manifest handling instructions (MANIFEST_HANDLING_INSTR), Non-hazardous waste description (NON_HAZ_WASTE_DESCRIPTION), DOT printed information (DOT_PRINTED_INFORMATION), Waste line handling instructions (WASTE_LINE_HANDLING_INSTR), Waste residue comments (WASTE_RESIDUE_COMMENTS).

PFAS NPDES: Clean Water Act Discharge Monitoring Information
Any discharger of pollutants to waters of the United States from a point source must have a National Pollutant Discharge Elimination System (NPDES) permit. The process for obtaining limits involves the regulated entity (permittee) disclosing releases in a NPDES permit application and the permitting authority (typically the state but sometimes EPA) deciding whether to require monitoring or monitoring with limits. Caveats and Limitations: Less than half of states have required PFAS monitoring for at least one of their permittees and fewer states have established PFAS effluent limits for permittees. New rulemakings have been initiated that may increase the number of facilities monitoring for PFAS in the future.

PFAS ECHO FIRE TRAIN: Facilities in Industries that May Be Handling PFAS Listing
A list of fire training sites was added to the Industry Sectors dataset using a keyword search on the permitted facilitys name to identify sites where fire-fighting foam may have been used in training exercises. Additionally, you may view an example spreadsheet of the subset of fire training facility data, as well as the keywords used in selecting or deselecting a facility for the subset. as well as the keywords used in selecting or deselecting a facility for the subset. These keywords were tested to maximize accuracy in selecting facilities that may use fire-fighting foam in training exercises, however, due to the lack of a required reporting field in the data systems for designating fire training sites, this methodology may not identify all fire training sites or may potentially misidentify them.

PFAS PT 139 AIRPORT: All Certified Part 139 Airports PFAS Information Listing
Since July 1, 2006, all certified part 139 airports are required to have fire-fighting foam onsite that meet military specifications (MIL-F-24385) (14 CFR 139.317). To date, these military specification fire-fighting foams are fluorinated and have been historically used for training and extinguishing. The 2018 FAA Reauthorization Act has a provision stating that no later than October 2021, FAA shall not require the use of fluorinated AFFF. This provision does not prohibit the use of fluorinated AFFF at Part 139 civilian airports; it only prohibits FAA from mandating its use. The Federal Aviation Administration?s document AC 150/5210-6D - Aircraft Fire Extinguishing Agents provides guidance on Aircraft Fire Extinguishing Agents, which includes Aqueous Film Forming Foam (AFFF).

UST FINDER: UST Finder Database
EPA developed UST Finder, a web map application containing a comprehensive, state-sourced national map of underground storage tank (UST) and leaking UST (LUST) data. It provides the attributes and locations of active and closed USTs, UST facilities, and LUST sites from states and from Tribal lands and US territories . UST Finder contains information about proximity of UST facilities and LUST sites to: surface and groundwater public drinking water protection areas; estimated number of private domestic wells and number of people living nearby; and flooding and wildfires.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

RGA LF: Recovered Government Archive Solid Waste Facilities List
The EDR Recovered Government Archive Landfill database provides a list of landfills derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Health and Environmental Control in South Carolina.

Date of Government Version: N/A
Date Data Arrived at EDR: 07/01/2013
Date Made Active in Reports: 01/15/2014
Number of Days to Update: 198
Source: Department of Environmental Services
Telephone: N/A
Last EDR Contact: 06/01/2012
Next Scheduled EDR Contact: N/A
Data Release Frequency: Varies

RGA LUST: Recovered Government Archive Leaking Underground Storage Tank
The EDR Recovered Government Archive Leaking Underground Storage Tank database provides a list of LUST incidents derived from historical databases and includes many records that no longer appear in current government lists. Compiled from Records formerly available from the Department of Health and Environmental Control in South Carolina.

Date of Government Version: N/A
Date Data Arrived at EDR: 07/01/2013
Date Made Active in Reports: 01/03/2014
Number of Days to Update: 186
Source: Department of Environmental Services
Telephone: N/A
Last EDR Contact: 06/01/2012
Next Scheduled EDR Contact: N/A
Data Release Frequency: Varies

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 11/02/2025
Date Data Arrived at EDR: 11/03/2025
Date Made Active in Reports: 01/23/2026

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.
Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248

TARGET PROPERTY COORDINATES

Latitude (North):	34.015446 - 34° 0' 55.61''
Longitude (West):	81.02138 - 81° 1' 16.97''
Universal Tranverse Mercator:	Zone 17
UTM X (Meters):	498025.9
UTM Y (Meters):	3763674.2
Elevation:	255 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	50049930 COLUMBIA NORTH, SC
Version Date:	2024
Southwest Map:	50049269 SOUTHWEST COLUMBIA, SC
Version Date:	2024

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

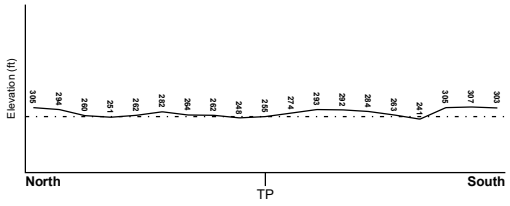

TOPOGRAPHIC INFORMATION

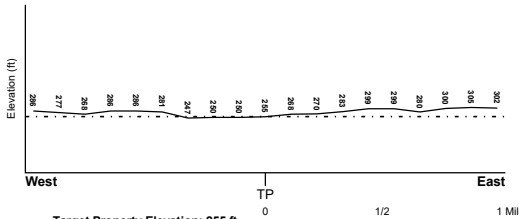

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General NW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Target Property Elevation: 255 ft.

0 1/2 1 Miles

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
45079C0092G	FEMA Q3 Flood data

Additional Panels in search area:	FEMA Source Type
45063C0168G	FEMA FIRM Flood data
45079C0094G	FEMA Q3 Flood data

NATIONAL WETLAND INVENTORY

NWI Quad at Target Property	NWI Electronic Data Coverage
COLUMBIA NORTH	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

For additional site information, refer to Physical Setting Source Map Findings.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Urban land

Soil Surface Texture: variable

Hydrologic Group: Not reported

Soil Drainage Class:
Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	59 inches	variable	Not reported	Not reported	Max: Min:	Max: Min:

Soil Map ID: 2

Soil Component Name: Pelion

Soil Surface Texture: loamy sand

Hydrologic Group: Class B/D - Drained/undrained hydrology class of soils that can be drained and are classified.

Soil Drainage Class: Moderately well drained

Hydric Status: Unknown

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 30 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	5 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
2	5 inches	7 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
3	7 inches	25 inches	sandy clay loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
4	25 inches	57 inches	sandy clay loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
5	57 inches	57 inches	sandy clay loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6
6	57 inches	74 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6 Min: 3.6

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005, 2010 and 2015 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory
Source: Department of Natural Resources
Telephone: 803-734-9494

HYDROGEOLOGIC INFORMATION

AQUIFLOW[R] Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

South Carolina Water Well Database
Source: Department of Natural Resources
Telephone: 803-734-6440
Water wells in the Coastal Plain counties of South Carolina.

Water Well Database
Source: Department of Natural Resources
Telephone: 864-654-1671
A listing of water wells in the Piedmont (upstate) counties.

OTHER STATE DATABASE INFORMATION

RADON

State Database: SC Radon
Source: Department of Health & Environmental Control
Telephone: 864-241-1090
Radon Test Results by Zip Code

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary faultlines, prepared in 1975 by the United State Geological Survey

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by S&ME, Inc. were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

EXECUTIVE SUMMARY

DESCRIPTION

The LightBox City Directory Report is designed to assist environmental professionals in evaluating potential liabilities on select properties resulting from past activities. The report includes a search of available business directory data at approximately five-year intervals.

SOURCES

Through agreements with major city directory publishers, including Cole Information, InfoUSA, and Bresser, as well as our own collections (Haines & Stewart), the LightBox City Directory Report offers comprehensive national coverage.
LightBox is authorized to reproduce and redistribute all works featured in this report. The purchaser of this LightBox City Directory Report may include it in their final report(s).

This report includes a search of the following sources:

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by S&ME, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Appendix IV – Vapor Encroachment Screening

Attachment - Tier 1 Vapor Encroachment Screening Report

♦ Introduction

S&ME has conducted a Phase I Environmental Site Assessment (ESA) for the Harmony at Horizon Village site located at 1810 Allen Benedict Court in Columbia, Richland County, South Carolina. The Phase I ESA was performed in accordance with American Society for Testing and Materials (ASTM) E1527-21, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM 2021), which requires the consideration of confirmed or potential releases of hazardous substances and/or petroleum products that may pose a threat of contamination to the subject property, including an evaluation of the potential migration of vapors. The evaluation of potential migration of contaminant vapors for this Phase I ESA, herein referred to as a Tier 1 Vapor Encroachment Screening (VES), was accomplished utilizing procedures described as Tier 1 Screening in ASTM E2600-22, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions* (ASTM 2022) and, if applicable, using the refined search distances presented by Buonicore (2009), as described below.

♦ Purpose

The purpose of this VES is to assist in evaluating the existence of Vapor Encroachment Conditions (VECs) at the subject property. The VES was performed to identify releases or potential releases of chemicals of concern on or near the subject property and to evaluate the likelihood of vapors migrating from the releases via the subsurface to the subject property. The presence or likely presence of vapors containing chemicals of concern in the subsurface of the subject property constitutes a VEC and may also constitute a *recognized environmental condition* (REC), as defined by ASTM E1527-21.

♦ Evaluation Process

The following information was reviewed during the Tier 1 VES to identify releases or potential releases of chemicals of concern on or near the subject property and to evaluate the likelihood of vapors migrating from the releases via the subsurface to the subject property:

- The type of contaminant (petroleum product vs. non-petroleum product known or suspected to have been stored on-site or at identified off-site sources;
- The distance between identified off-site sources and the nearest subject property boundary;
- Information of known or assumed groundwater flow directions(s) with respect to the subject property;
- The potential for preferential pathways or barriers to exist between the identified off-site sources and the subject property boundary; and,
- Physical setting and other information sources.

The ASTM E 2600-22 Tier 1 Screening process recommends initial screening distances to estimate contaminant plume length and width with no empirical plume data. In cases where the direction of groundwater flow is known or can be reasonably assumed, those distances were refined under a conservative scenario using calculations presented by Buonicore (2009). The resulting vapor screening distances (*i.e.*, distances from a potential off-site contaminant source to the nearest boundary of the subject property) are presented in Table 1 with respect to the type of contaminant and the known or presumed direction of groundwater flow.

Table 1 - VES Area of Concern (AOC) Screening Distances

Contaminant Type	Source Location with respect to the nearest Subject Property boundary and considering known or assumed groundwater flow direction(3)		
	Up-gradient	Cross-gradient	Down-gradient
Non-petroleum COC(1) (see ASTM E 2600-15, Appendix X6)	1,760 feet (1/3rd mile)	365 feet	100 feet
Petroleum COC NAPL (2)	528 feet (1/10th mile)	165 feet	100 feet
Petroleum COC Dissolved	528 feet (1/10th mile)	95 feet	30 feet

Notes: (1) COC – Chemicals of Concern
(2) NAPL – Non-Aqueous Phase Liquid (*i.e.*, free product)
(3) Groundwater Flow Direction – if not known or assumed, use search distance of 1,760 feet for up-gradient, cross-gradient, and down-gradient

♦ Results

Based on our review of information collected as part of the Phase I ESA process, the subject property was not identified as a potential vapor contaminant source. Potential off-site contaminant sources were evaluated with respect to the process, screening distances, type of contaminant, and known or assumed groundwater flow direction. Table 2 lists the potential vapor contaminant source(s) identified at the subject Property. No off-site vapor sources were identified with the AOC.

Table 2 – Identified Potential Contaminant Sources

Contaminant Source	Distance, direction, and groundwater flow direction (with respect to the nearest subject Property boundary)	Contaminant Type and Screening Distance	Vapor Encroachment Conditions Determination
None Identified	NA	NA	**A VEC Does Not Exist**

♦ Conclusions

Based on the processes described herein, no VECs were identified.

Appendix VI – User Questionnaire and Interview Documentation

PHASE I ENVIRONMENTAL SITE ASSESSMENT
USER QUESTIONNAIRE

In order to qualify for Landowner Liability Protections (LLPs), ASTM E1527-21 specifies that the ESA User must provide the following information, if available, to the Environmental Professional. Failure to provide this information could make the ESA incomplete and the User unable to qualify for LLPs.

1. As the User of this Phase I ESA, do you have knowledge of any environmental clean-up liens against the subject property that are filed or recorded under federal, tribal, state, or local laws?

   NONE

2. As the User of this Phase I ESA, do you have knowledge of any Activity and Use Limitations (AULs) such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, state, or local laws?

   NONE

3. As the User of this Phase I ESA, do you have any specialized knowledge or experience related to the subject property or nearby properties?

   NO

4. Does the purchase price being paid for this property reasonably reflect the fair market value of the subject property? If not, is the lower purchase price attributable to known or suspected contamination?

   GROUND LEASE (NO PURCHASE)

5. As the User of this Phase I ESA, do you have knowledge of information about the subject property that would be helpful in identifying conditions indicative of contaminant releases, such as: a) past use of the subject property; b) presence of specific chemicals (past or present); c) spills or chemical releases at the subject property; or d) environmental cleanups that have taken place at the subject property?

   NONE

6. As the User of this Phase I ESA and based on your knowledge and experience of the subject property, are there any obvious indicators that point to the presence or likely presence of contamination on the subject property?

   NONE

7. What is the purpose of the Phase I ESA (i.e., why is it needed)?

   9% TAX CREDIT APPLICATION FOR MULTIFAMILY AFFORDABLE HOUSING

User Questionnaire (continued)

In addition, certain other information should be provided, although not necessarily to qualify for *LLPs,* including contact information for past and current property owners, operators, and key occupants; the reason for performing this ESA; and documentation showing the property address, location, and boundaries.

8. Is the subject property on city utilities? If so, how long has the subject property been on the city system?
   X No ___ Yes (please explain below)

9. Is there or was there previously a septic system present at the subject property?
   X No ___ Yes (please explain below)

10. If there are buildings on the subject property, how are the buildings heated?
    X No ___ Yes (please explain below)

11. Have the buildings always been heated this way? If not, what was the prior heat source(s)?
    ___ Yes ___ No (please explain below)

    N/A

12. Are you aware of underground and above-ground storage tanks on the subject property?

    NO

13. If available, **provide contact information for past and current property owners, operators, and key occupants.**

    COLUMBIA HOUSING AUTHORITY

14. Are you aware of past or present land application of residual biosolids at the subject property? If so, what is (or was) the source of the residual biosolids?

    NO

15. If not previously presented to S&ME, please provide documentation showing the subject property address, location, and boundaries.

Printed Name TORIAN R. PRIESTLY Signature _____ Date 4/21/26

USER-FURNISHED INFORMATION

The following is a list of documents and information that could be useful to S&ME in preparing your Phase I ESA. Please check the appropriate boxes below, sign, and fax or e-mail this form along with the signed Agreement for Services and completed User Questionnaire. We will contact you regarding review of any available materials.

Yes	No	
X		1. Environmental site assessment reports
	X	2. Environmental audit reports
	X	3. Environmental permits (i.e., solid waste disposal permits, hazardous waste disposal permits, wastewater permits, NPDES permits)
	X	4. Registrations for underground and above-ground storage tanks
	X	5. Material safety data sheets (MSDS)
	X	6. Community right-to-know plan
	X	7. Safety plans; preparedness and prevention plans; spill prevention, countermeasure and control plans, etc.
		8. Reports regarding hydrologic conditions on the subject property or surrounding area
	X	9. Reports of any past or current environmental remediation on-site or on adjoining properties
	X	10. Notices or other correspondence from any government agency relating to past or existing environmental liens encumbering the subject property
		11. Hazardous waste generator notices or reports
	X	12. Geotechnical studies
	X	13. Report of earthwork or land filling activities on-site
	X	14. Information concerning any pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum Products
	X	15. Notices from any governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products
		16. Disclosure of sumps, pits, drainage systems (i.e., the existence of and location)
X	X	17. Building plans (architectural, utility, structural)
		18. Description of current site operations, including layout drawings or sketches
	X	19. Title report/chain-of-title
	X	20. Tax assessor records (previous owner and occupants)
	X	21. Purchase price analysis (if lower than comparables)
X	X	22. Current and historical photographs of the subject property

PHASE I ENVIRONMENTAL SITE ASSESSMENT
OWNER QUESTIONNAIRE

1. Do you have knowledge of any environmental clean-up liens against the property that are filed or recorded under federal, tribal, state, or local laws?

   NO

2. Do you have knowledge of any Activity and Use Limitations (AUL's) such as engineering controls, land use restrictions, or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, state, or local laws?

   Currently there is a Declaration of Trust recorded from HUD recorded on the property but this will be released prior to the closing of the new properties.

3. Do you have any specialized knowledge or experience related to the subject property or nearby properties?

   The property was originally a traditional public housing site built in 1940. In 2019, two individuals tragically lost their lives due to carbon monoxide poisoning. The property was evacuated and all units were subsequently demolished, and the underground infrastructure was removed.

4. Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If not, is the lower purchase price attributable to known or suspected contamination?

   The property is not being purchased – the Housing Authority will provide a long term ground lease at minimal cost.

5. Do you have knowledge of information about the property that would be helpful in identifying conditions indicative of contaminant releases, such as: a) past use of the property; b) presence of specific chemicals (past or present); c) spills or chemical releases at the property; or d) environmental cleanups that have taken place at the property?

   NONE

6. Based on your knowledge and experience of the property, are there any obvious indicators that point to the presence or likely presence of contamination on the property?

   NO

Owner Questionnaire (continued)

7. What are the current and past uses of the property?

   Property is currently vacant. Past use described above under #3,

8. Is the subject property on city utilities? If so, how long has the subject property been on the city system?
   ___ No __X__ Yes (please explain below)

   The property has city water and sewer and is served by Dominium Power for electricity. Spectrum provides cable and internet services.

9. Is there or was there previously a septic system present at the subject property?
   __X__ No ___ Yes (please explain below)

10. If there are buildings on the subject property, how are the buildings heated?
    __X__ No ___ Yes (please explain below)

11. Have the buildings always been heated this way? If not, what was the prior heat source(s)?
    __X__ Yes ___ No (please explain below)

12. Are you aware of past or present Underground Storage Tanks or Aboveground Storage Tanks on the property?

    NO

13. Are you aware of past or present land application of residual biosolids at the subject property? If so, what is (or was) the source of the residual biosolids?

    NO

- Institute of Hazardous Materials Managers

Thomas Wallace Behnke; P.G., CHMM

Environmental Group Leader

Mr. Behnke is the Environmental Location Coordinator for S&ME's Columbia, South Carolina Office. He is a licensed geologist in South Carolina and North Carolina. He is skilled in the following disciplines: Phase I and Phase II environmental site assessments, Brownfields Assessment, soil and ground water sampling, subsurface investigations, corrective action plans development and implementation, assessment and remediation of solid hazardous waste sites, asbestos consulting and lead based paint services including building inspections, and asbestos and lead paint abatement project design, monitoring well installation and drilling oversight, indoor air quality/biological assessments in public buildings, supervision of mold remediation projects in commercial buildings.

Key Projects and Assignments

SC Department of Mental Health Bull Street Campus
Columbia, South Carolina | 2007- 2016

Senior Project Manager for environmental investigation of the South Carolina Department of Mental Health Bull Street campus under the South Carolina Department of Health and Environmental Control's (SCDHEC) Brownfields Program. Work included Phase I Environmental Site Assessment on 150 year old mental health campus in downtown Columbia. Site consisted of 182 acres of property with 52 buildings ranging from 150 to 20 years in age. Follow up Remedial Investigation of 25 areas of concern including subsurface soil and groundwater sampling and removal and assessment of 12 USTs. Work included performing asbestos surveys on 52 campus buildings totaling over 1 million square feet of building space in accordance with SCDHEC regulations.

University of South Carolina - Capstone Renovations
Columbia, South Carolina | 2008

Senior Project Manager for asbestos project design, project management and abatement oversight for the Top of Carolina renovation located at the USC Capstone building in Columbia, South Carolina. The project involved the abatement of spray applied ceiling material, plaster ceiling material and structural fire proofing in a rotating restaurant facility located on the 18th floor atop the USC Capstone building. The project included a complete gut of the plaster ceilings and HVAC duct work. The working conditions called for the removal of these materials from the top floor of the building occupied with students, keeping low profile and maintaining safe building conditions for the duration of the work.

USC Legare Pinckney Renovation at USC Horseshoe
Columbia, South Carolina | 2014-2016

Senior Project Manager for asbestos and lead-based paint survey, asbestos project design, project management and abatement oversight for the Legare

**Experience with previous employer.*

Pinckney building renovation located at USC Columbia campus. Technical and logistical issues included historical building preservation considerations accommodating University schedules and maintaining a low profile to keep facility disturbances to a minimum. Aggressive renovation schedule and multiple contractor change orders required S&ME to be on call for immediate response and site mobilization to perform testing and monitoring for regulatory compliance and worker safety.

Marlboro County School District

Bennettsville, SC| 2011

Performed Phase I and Phase II Environmental Site Assessment (ESA) for old farm properties for proposed new school site. Discovered pesticides in soil and groundwater above risk screening levels. Assisted school district in selection of new school sites environmentally suitable for construction.

Lexington High School – Phase II Assessment

Lexington, South Carolina | 2012

Performed Phase II Environmental Assessment for nitrate contamination in groundwater at direction of South Carolina Department of Health and Environmental Control. Assessment included collection of multiple groundwater samples across and determination of dual source contamination from surrounding agricultural use.

Richland School District 1 – Chemical Disposal

Columbia | 2010-2011

Coordination and oversight of laboratory chemical identification, packaging and disposal. Services were performed for multiple schools and included cataloging unwanted laboratory chemicals from classroom laboratories, testing, and designation as hazardous or non-hazardous waste, proper manifesting and disposal.

AgFirst Farm Credit Building Renovation

Columbia, South Carolina | 2013-2014

Senior Project Manager for hazardous materials survey for the former AgFirst Farm Credit Bank Building in Columbia, SC. The AgFirst building is comprised of two wings which were constructed at different times. The original building is three stories and was constructed in 1925. In 1934, a five story "L" shaped addition was constructed on the east side of the original building. A basement is located under the northern end of the 1934 addition. The building has a total interior area of approximately 98,000 square feet. Surveys included asbestos, lead-based paint and miscellaneous hazardous materials screening including, but not limited to, PCB light ballasts, fluorescent lighting fixtures. Prepared asbestos abatement project design and managed asbestos abatement and air monitoring for 5 month duration asbestos abatement project in connection with renovation for residential use.

**Experience with previous employer.*

Carolina Crossroads I-20/I-26/I-126 Improvement Project

Richland and Lexington Counties, South Carolina

The proposed construction for this project includes the improvement of the existing I-20, I-26, and I-126 corridor, including new bridges, overpasses, interchanges, ramps, and widening. S&ME performed hazardous materials surveys on nine bridges associated with the Carolina Crossroads project. The assessments included sampling the structures for asbestos and lead-based paint in accordance with state and federal regulations. Many of the structures presented access challenges due to locations over active interstates, height and traffic hazards.

Hazardous Materials Bridge Inspections - Indefinite Deliverables Contract

Statewide | 2006-Ongoing

Senior Project Manager for lead paint and asbestos inspections for over 100 SCDOT bridges throughout South Carolina. Developed sampling strategies, assigned and interpreted laboratory tests.

Interstate 20 Improvements

Lexington County, South Carolina | 2016-Ongoing

Senior Project Manager for lead paint and asbestos inspections for SCDOT bridges associated with road improvement project. Services included the sampling and analysis of hazardous materials including asbestos and lead-based paint. Safe work practices were paramount during the sampling process as the projects were active roadways with traffic hazards. Reports were submitted on time and on budget.

**Experience with previous employer.*

- Asbestos Project Designer
- HAZWOPER, 40-hour
- HAZWOPER Supervisor

Travis Knight, CSP CHMM, CIEC

Environmental Services Manager

Mr. Knight specializes in asbestos building inspections, lead-based paint assessments and mold assessments for industrial hygiene projects. Mr. Knight is an EPA Certified Lead Risk Assessor. In addition, he routinely performs Phase I Environmental Site Assessments by ASTEM E1527. He is experienced in interacting with project managers, contractors, and clients. Mr. Knight also conducts groundwater and soil sampling for environmental projects.

Key Projects and Assignments

Columbia College – Ariail-Peele

Columbia, South Carolina | 2022-2023

Performed asbestos assessment and lead-based paint inspection on an approximately 12,000 square foot abandoned classroom facility located in Columbia, South Carolina prior to planned demolition. Wrote asbestos abatement design for the abatement of asbestos-containing materials and provide asbestos air monitoring services during abatement.

Columbia College -Daniel Hall

Columbia, South Carolina | 2022-2023

Performed asbestos assessment and lead-based paint inspection on an approximately 28,000 square foot abandoned dining facility located in Columbia, South Carolina prior to planned demolition. Wrote asbestos abatement design for the abatement of asbestos-containing materials and provide asbestos air monitoring services during abatement.

Benedict College – Human Resource Center

Columbia, South Carolina | 2022

Performed asbestos assessment and lead-based paint inspection on a large two-story office and gymnasium facility located in Columbia, South Carolina prior to planned renovations.

South Carolina Department of Mental Health – Fewell Building

Columbia, South Carolina | 2020

Performed asbestos assessment and lead-based paint inspection on an approximately 51,300 square foot abandoned nursing home facility located in Columbia, South Carolina prior to planned renovations.

South Carolina State University Mays I & II Dormitory

Orangeburg, South Carolina | 2019

Performed Hazardous Material Assessments on two multi-story dormitories at the South Carolina State University in Orangeburg, South Carolina. The assessment included asbestos-containing materials, lead-based paint and other hazardous building materials. The assessments were performed prior to planned demolition activities.

**Experience with previous employer.*

C.A. Taylor Elementary School – Lexington County School Dist. 2
Cayce, South Carolina | 2020

Performed Hazardous Material Assessment on an approximately 37,000 square foot vacant school building located in Cayce, South Carolina. The assessment included asbestos-containing materials, lead-based paint and other hazardous building materials. The assessment was performed prior to planned demolition activities.

Clemson University – Sandhills Research Center
Columbia, South Carolina | 2018

Performed asbestos assessments and lead-based paint inspections on 25 buildings on the Clemson University Sandhills Research Center campus in Columbia, South Carolina.

Clemson University – Pee Dee Research Center
Darlington, South Carolina | 2016

Performed lead-based paint assessments on twelve buildings located at the CU Pee Dee Research & Education Center in Darlington, South Carolina. The lead-based paint assessments were performed prior to the buildings being renovated. The assessments included the testing of painted surfaces using an X-Ray Fluorescence Spectrum analyzer to identify lead-based paint systems.

University of South Carolina Aiken
Aiken, South Carolina | 2013 & 2016

Project professional for an asbestos and lead-based paint assessment on three occupied dormitory complexes in 2013 at the USC Aiken Campus. Performed asbestos assessment updates of the three dormitory complexes in 2016. The buildings ranged in size from 82,800 square feet to 117,313 square feet. The assessment and update assessment were performed to identify asbestos-containing materials and lead-based paint systems that may be disturbed during future renovation and maintenance activities.

Phase I Environmental Site Assessments
Various Counties in South Carolina & Georgia | 2008-Present

Environmental Professional for various Phase I Environmental Site Assessment for various sites in South Carolina and Georgia.

**Experience with previous employer.*
