This will not be an issue, just submit what you have.

Subject: [External] 2026 Rehab Applications

Kim,

We are planning to submit two rehab applications in 2026 and I have a question. We have 8609s for both deals but one of them does not have the bottom completed and signed. I know that it was done but apparently the scanning and filing capabilities were not the same as what we have now. I can check with our accountant but I'm afraid that David was using a different accountant at the time and since the 8609s were issued in 2000, I am not hopeful that anyone will have a copy of the completed forms. I will continue to research this and try to get complete copies but If I cannot, will this be an issue? Thank you.

Mary Ann
