Call Option:

After the termination of the credit period for the State Credits, the Company will have the option to redeem Cabretta's ownership interest at fair market value plus accrued but unpaid asset management fees, based on the amount of sales proceeds that would be received from a sale of the Partnership assets for fair market value, assuming continued use of the Project for Low-income housing for at least fifteen (15) years after the end of the compliance period and distribution of such proceeds (net of a reasonable estimated cost of sale).

The State Lender shall have a security interest in the State Investor's interest (which may be junior to the partnership's security interest). The State Lender shall be accepted as a substitute limited partner in the event it forecloses on its security interest. The obligation of the assigning State Investor to make its Capital Contribution shall not be released in the case of an assignment.
