Re: 0114001000100

Dear Sir or Madam:

Greenville Water owns and operates water lines which are available to serve the above property in accordance with the Rules and Regulations of Greenville Water (GW).

This property may be currently served by active accounts. These accounts and taps shall be reused or killed at the developer's expense. Taps to be killed shall have corporation turned off and threads destroyed. All killed taps shall be verified by GW inspector.

System improvements may be required at the developer's expense. A substantially complete set of plans and estimated total domestic and fire demand should be submitted to Greenville Water for review for final capacity determination.

If this property is within the annexation radius of 1.5 miles as set by the City of Greenville, an Annexation Covenant will need to be filled out and executed at Greenville County before taps can be applied for. This applies to commercial projects or property subdivided into more than 4 lots as required by the City of Greenville Resolution.

Sincerely,
GREENVILLE WATER

Eric Williams
