Subject: [External] Comments to Second Draft 2026 QAP

Thank you for the opportunity to provide further comment on the 2026 SC QAP.

We request that you reconsider the decreased credit caps. More federal credits will be available next year to support more deals, and a credit cap of \$1,750,000 or greater will ensure funded projects are viable.

Please consider increasing the proximity to public transportation to 0.5 miles.

Please consider allowing photos pulled from online with certain parameters (address visible, for example).

Sarah Jones-Anderson
Senior Vice President of Development
