Subject: [External] 2025 SC QAP Requested Changes

Hi Kim,

Please see below for my comments for changes for the current QAP.

Appendix C-1

1. Please consider removing or changing the project-based voucher scoring category with a different scoring criteria.
2. Under Section C of the evaluation of rehabilitation applications, instead of awarding 1 point if the subject application did not receive an allocation at the tiebreaker level in the previous application round, revise to 1 point is awarded for each application round in which the subject application did not receive an allocation at the tiebreaker level.

Appendix C-2

1. Add an additional point scoring criteria for the bond program instead of being solely ranked on the state resources ranking criteria.

Thank you,

Josh Gill
