RE: Sewer Availability for TMS# 2-50-00-094.15; -094.03; and -016.01

Dear Field:

We have been asked to verify the availability of sewer service at the above referenced property for a potential multifamily residential development.

The Spartanburg Sanitary Sewer District (SSSD) has an existing 8-inch gravity sewer located in an easement on parcel 2-50-00-094.09 that is nearest to the referenced property, within approximately 690-ft. This existing gravity sewer main and others that are in the vicinity are shown on the attached map, represented by green dashed lines. Sewer service can be made available to the referenced property with a developer-led sewer extension subject to the developer's compliance with SSSD's current policies, regulations, and design criteria for the proposed type of connection. For more information on obtaining sewer service at this location, please contact me at jreome@sws-sssd.org or (864) 580-5670.

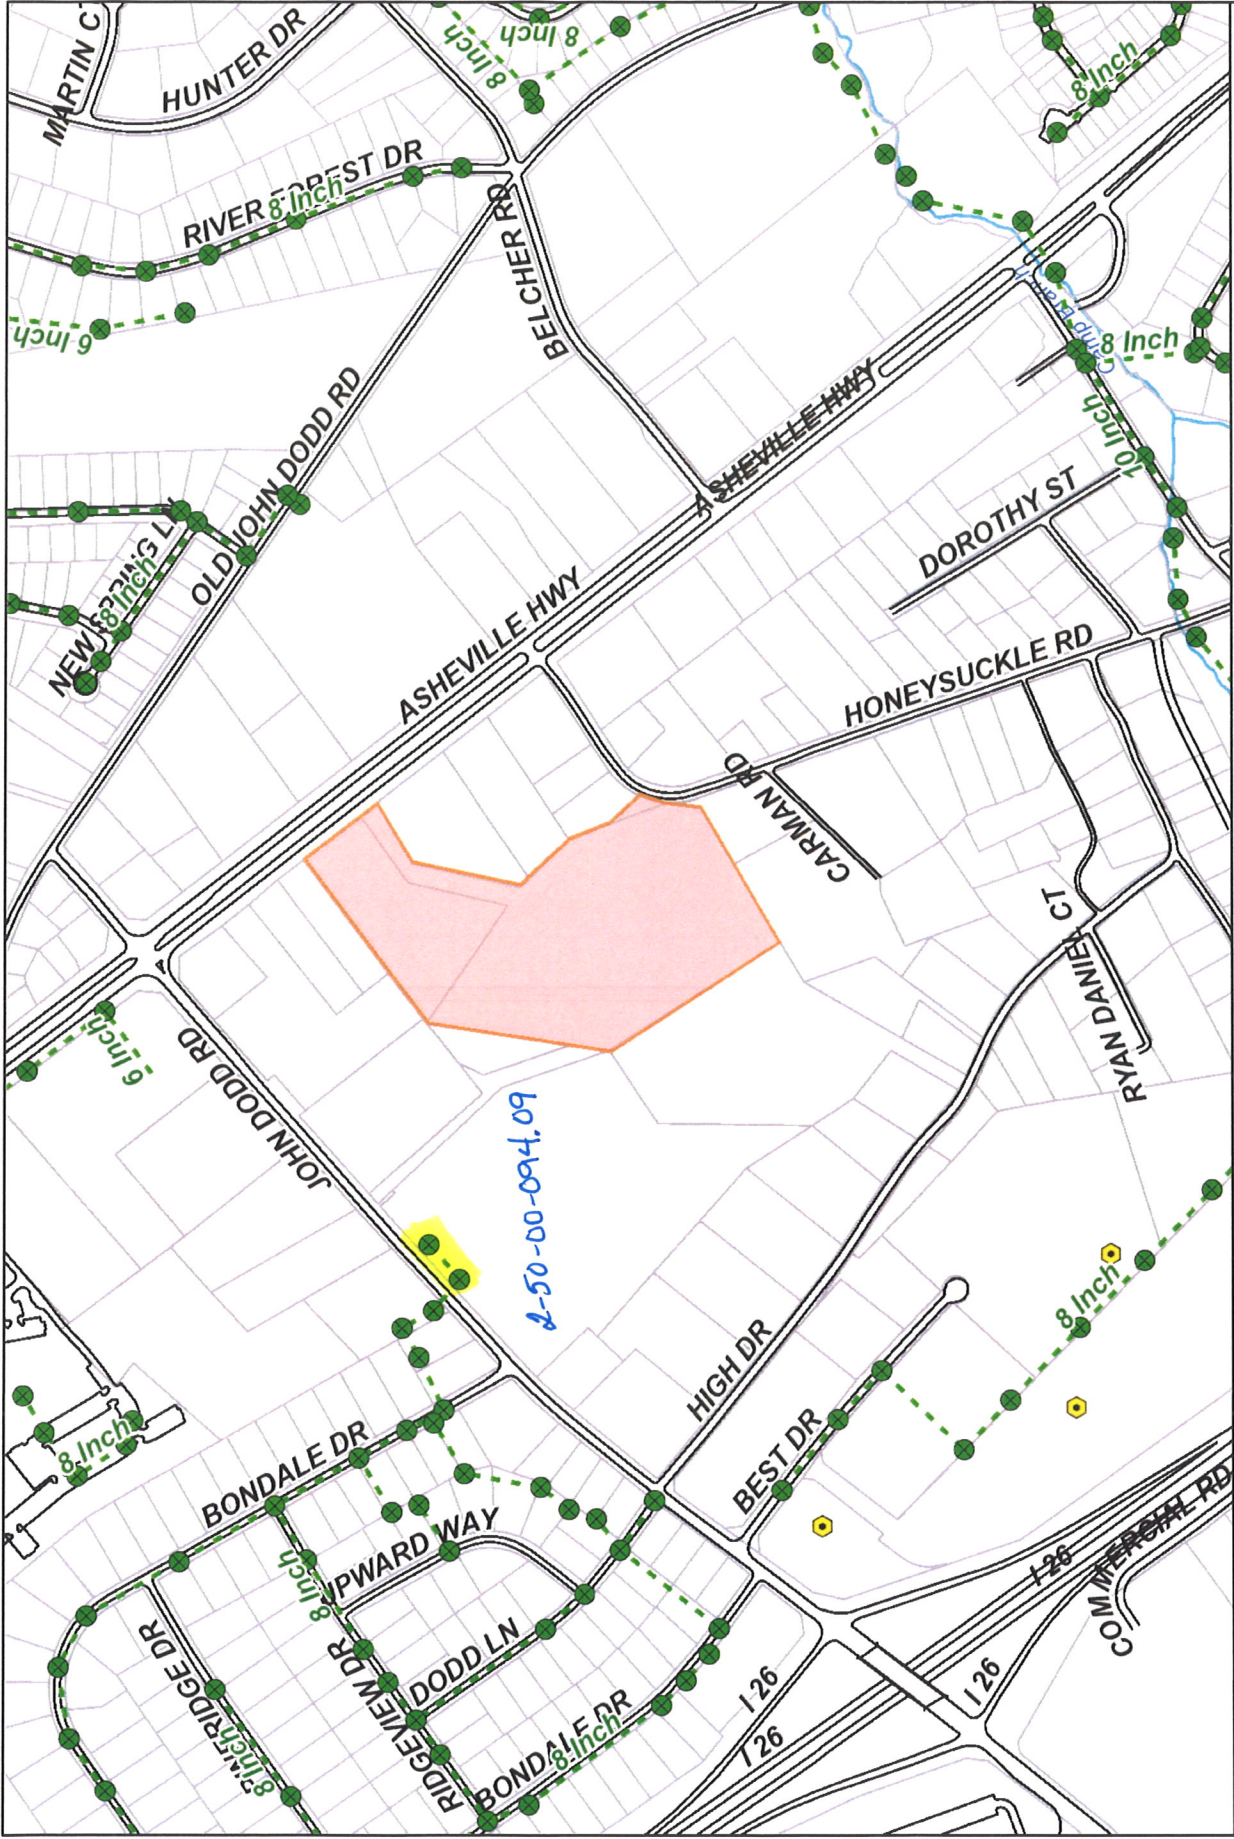

Sincerely,

SPARTANBURG WATER
