GENERAL INFORMATION

The Authority is introducing the Small Rental Development Program (SRDP) for 2018. This affordable housing program will offer multiple funding sources, both federal and state, for new construction projects that contain at least eight (8) affordable housing units but not more than 24 total units. There are three funding sources available and are described below:

- ▶ The HOME Investment Partnerships Program (HOME) is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act, as amended. The HOME Program regulations are located at 24 CFR Part 92. The South Carolina State Housing Finance and Development Authority's (Authority) HOME Program is designed to promote partnerships among the U.S. Department of Housing and Urban Development (HUD), various federal agencies, state and local governments, and those in the non-profit and for-profit sectors. The goal of the HOME program is to create affordable housing for low-income households.
- ▶ The National Housing Trust Fund (NHTF) was established under Title I of the Housing and Economic Recovery Act of 2008, Section 1131 (Public Law 110-289). The NHTF regulations are located at 24 CFR Part 93. It is the most recently created affordable housing production program and is designed to complement existing federal, state and local efforts to increase the supply of safe, decent and affordable housing, primarily rental housing, for extremely low-income (ELI) and very low-income (VLI) households, including homeless families.
- ▶ The South Carolina Housing Trust Fund (HTF) was established by the SC Legislature in 1992 through the Housing Trust Fund Act. The regulations are located in Title 31, Chapter 13, Article 4 of the Code of Laws of South Carolina, as amended. HTF provides financial assistance for the development of affordable housing for low-income and very-low-income households.

PROJECT FEASIBILITY AND UNDERWRITING GUIDELINES

All applications are subject to financial review by the Authority. The underwriting will consist of, but is not limited to, the following areas (line numbers refer to the “Development Costs” tab of the application):

Development Costs: The maximum amount of Total Development Costs (TDC) per unit cannot exceed \$175,000, and all costs are subject to third party review for justification of acceptable, reasonable costs. Development costs are evaluated for necessity and reasonableness at the time of initial application as well as when a project is placed in service. The Authority will utilize a construction consultant to determine whether proposed development costs are appropriate. Based on a review of the development and site plans, M-35 Construction Costs Addendum, and M-36 Construction Design Certification, a consultant will provide a written assessment of reasonableness of proposed development costs, together with any proposed recommendations or required changes. Proposals with costs exceeding the consultant’s recommendations must submit an explanation for the higher costs and will be required to revise costs accordingly. The Authority reserves the right to determine whether final costs are appropriate and acceptable at both initial application and at placed in service.

Developer Fees, Developer Overhead, and Consultant Fees (Fees): Fees are limited based on development costs. Fees are calculated as the total of Developer Fees 5% (line 35) plus Developer Fees 15% (line 36) plus Consultant Fees (line 16) from Development Costs in the application. Fees are limited as follows:

- a) **Fees on Acquisition Costs:** Developer Fees 5% (line 35) may not exceed five percent (5%) of “**Adjusted Acquisition Costs.**” The formula is:

$$\frac{\text{Developer Fees 5\% (line 35)}}{\text{Adjusted Acquisition Costs (Total Acquisition Costs (line 1-3) Less Land (line 1))}}$$

- b) **Fees on New Construction, Rehabilitation without a Change in Ownership, or Rehabilitation portion of Acquisition/Rehabilitation:** The sum of Fees (line 36 + line 16) may not exceed fifteen percent (15%) of “**Adjusted Development Costs.**” The formula is:

$$\frac{\text{Developer Fees 15\% (line 36) + Consultant Fees (line 16)}}{\text{Adjusted Development Costs}}$$

“Adjusted Development Costs” is calculated as follows:

Total Development Costs	(line 38)
Less Acquisition Costs	(lines 1-3)
Less Consultant Fees	(line 16)
Less Developer Fees	(lines 35 and 36)

M-35 Construction Costs Addendum: - This form is required as part of a complete application. All costs detailed on the M-35 must tie to costs presented on page 9 of the application in the appropriate cost category.

Minimum Hard Costs: Minimum hard costs must be no less than **sixty-five percent (65%)** of total development costs. **Hard costs** include the following line items:

Land	(line 1)
Existing Structures	(line 2)
Other (Acquisition Costs)	(line 3)
Demolition	(line 4)
On-Site Improvements	(line 5)
New Building	(line 6)
Rehabilitation	(line 7)

Contractor Costs: The combined total of general requirements and contractor profit & overhead may not exceed **fourteen percent (14%)** of hard construction costs. The structure of these fees is limited to the following:

General requirements (line 8)	may not exceed	6% of hard construction costs
Contractor profit & overhead (line 9)	may not exceed	8% of hard construction costs
Total contractor fees	may not exceed	14% of hard construction costs

Hard Construction Costs: Include the following line items from the development costs schedule:

Demolition	(line 4)
On-Site Improvements	(line 5)
New Building	(line 6)
Rehabilitation	(line 7)

Minimum Rehabilitation Costs: The Authority requires a minimum rehabilitation expenditure of **\$10,000** per unit in hard construction costs for an acquisition/rehabilitation development with at least \$5,000 of the hard construction costs attributed to interior unit costs.

Operating Costs:

- Projected operating expenses, for all developments, must be **\$4,000 per** unit, per year, excluding taxes and reserves.
- If any utilities, including water and sewer, are owner-paid, then the operating expense minimum will be increased to include the additional utilities for the rental units.
- The Applicant must provide an explanation and satisfactory documentation of the projected utility amount per unit.
- The Applicant must, upon request, provide a detailed explanation of the determination of annual operating costs.
- The Applicant must justify operating costs, and such costs may be accepted or rejected by the Authority in its sole judgment.

Vacancy Rate: The application must utilize a vacancy rate of not less than **seven percent (7%)**. The vacancy rate must be applied to both rental income and other income since the other income is to be derived from the rental income.

Debt Coverage Ratio (DCR):

- Funding will not be reserved or allocated to developments that are not financially feasible. The development’s initial DCR may not be less than 1.30.
- The DCR is calculated as Net Operating Income (NOI) divided by the annual debt service. For this purpose, NOI is the income remaining after subtracting Total Annual Expenses and Annual Replacement Reserves from the Effective Gross Income (EGI).

- All proposals will be underwritten such that they produce a DCR of 1.30. If a 1.30 DCR produces cash flow less than \$900, the underwriting will be adjusted such that the proposal will be able to reach \$900 per unit in annual cash flow.

Annual Rent and Expense Trends and Cash Flow:

- Development rents will be trended upward at a two percent (2%) annual increase.
- Operating expenses will be trended upward at a three percent (3%) annual increase.
- The Proforma Income Statement must demonstrate that the project will maintain a positive cash flow for the entire 30 year affordability period. The project must demonstrate a positive cash flow for a period of 30 years using the same rent and expense trending criteria referenced above.

Permanent Loan Requirements for Projects Containing Market Rate Units:

All permanent debt used to finance a project must meet the following requirements:

- Loans with unspecified interest rates or unspecified repayment terms are not acceptable. The application must include a loan amortization schedule indicating payments for the entire loan period.
- Permanent loans should amortize so that debt service is paid over a period of 20 years or longer with a maximum amortization period of 30 years. If a loan is submitted with an amortization period of less than 20 years, the Authority may restructure the terms and repayment of any Authority funds as deemed appropriate by underwriting staff to prevent the over-subsidizing of a development.
- Projects financed with debt that includes a balloon or other variable payment must continue to meet all underwriting requirements throughout the affordability period. Loans with balloon payments will be underwritten with adjustments at the time of the balloon payment as follows:
 - Balloon payment due in less than 10 years = initial interest rate + 200 basis points.
 - Balloon payment due in 10 years or more = initial interest rate + 300 basis points.

The principal amount to be used in the loan adjustment will be the balance of the loan principal remaining at the time that the balloon payment is due.

The amortization term to be used in the loan adjustment will be equal to the number of years remaining on the original amortization period at the time that the balloon payment is due. Examples:

- 1) A loan with a 6% interest rate, 5 year balloon, and 20 year term – will be re-amortized in year 6 using an 8% interest rate with a term and amortization of 15 years.
- 2) A loan with a 6% interest rate, 10 year balloon, and 20 year term – will be re-amortized in year 11 using a 9% interest rate with a term and amortization of 10 years.

Developments that require loan adjustments due to balloon payments must be able to demonstrate positive cash flow for no shorter than twenty (20) years. If the financing structure includes a repayable HOME loan that is amortized and paid over the course of thirty (30) years then the development must be able to demonstrate positive cash flow for the entire loan period. Failure to do so may result in disqualification.

Reductions to the permanent loan between the time of award and the point at which a development places in service are allowable based on the terms of the agreement with the lender. However, for underwriting purposes, at the time that the development places in service, the permanent loan must maintain at least the same ratio to total funding as determined at the time of the initial award.

Replacement Reserves:

Applicants are required to establish and make annual contributions to replacement reserves. The minimum replacement reserves are three hundred dollars (\$300) per unit, per year for all development types.

Annual contributions are made from operating cash flow and are cumulative. Annual contributions are required to the replacement reserve account until the account reaches a funding level of three thousand dollars (\$3,000) for all development types.

Once these levels are met, the accounts must be replenished, when used, through annual contributions as stated above. Any use of replacement reserve funds must be approved in advance by the Authority. All requests for the use of replacement reserves must be in writing and must include detailed quantity and pricing information for replacement items. Requests made via email will satisfy the “in writing” requirement and should be addressed to Chris.McMillan@schousing.com. If Authority approval is not received within five (5) business days of receipt, the Replacement Reserve request is automatically granted.

Operating Reserves:

Operating reserves are funded initially from development costs and replenished, when used, from operating cash flow. Operating reserves must be maintained at the required level throughout the affordability period, as follows:

- **Less than ten (10) units:** Three (3) months of projected operating expenses
- **Ten (10) or more units:** Six (6) months of projected operating expenses

Placed in Service Application:

PIS Requirements: The owner must submit a placed in service application once construction is one-hundred percent (100%) complete and final certificates of occupancy have been issued. The placed in service application must be submitted in a three ring binder and must include the following:

- All unpaid fees or charges owed the Authority to include compliance monitoring and/or administrative fees; and
- All supporting documentation required by the PIS Application Checklist (Exhibit 6).

This process is subject to change to comply with additional guidance, notices, or regulations issued by HUD and SCSHFDA.

Cost Certification Requirements: As part of the Application for final allocation of Authority funds, the Applicant is required to submit a cost certification acceptable to the Authority. The cost certification must be in the form outlined in Exhibit 8. The cost certification must be prepared and certified as to accuracy by an independent third party CPA licensed by the South Carolina Board of Accountancy. It must include a statement that a final copy of all costs incurred has been reviewed and is in accordance with the requirements of the SRDP program. The certification must indicate that after careful review and investigation into the eligible costs, the costs that are not includable have been excluded from Authority funds. The Authority reserves the right to request an additional CPA opinion, at the expense of the Applicant, for costs that are questionable as to their eligibility relating to the program being administered. The Authority assumes no responsibility for determining which costs are eligible and urges the Applicant and their CPA to perform an independent investigation into the eligibility of all cost items.

The Authority, in its sole discretion, reserves the right to waive any of the above financial requirements if the facts and circumstances regarding a project warrant the waiver. Any such waiver will be decided solely by Authority staff on a case-by-case basis.

All positive site services must be listed on **Exhibit 7 - Site Distances**. All directions must be printed from the mapping system and included in the application for points to be awarded. **Directions that do not lead to the service, as stated in the directions provided with the Application, will not be awarded points.** Distances are subject to Authority verification and are GPS measured and odometer* confirmed by third party site analyst from center of entrance into site to center of entrance into service location. Distances for scattered sites will be determined as outlined in the definition for scattered sites. All positive site services must be open to the general public and operational at the time the Authority’s site visit is made or points will not be awarded.

***Odometer Calculations:** the distances to positive services are driven and the odometer mileages and electronic tracking data systems used to determine mileage calculations. Distances are measured to one decimal point and are not rounded up or down. Distance less than a ½ mile is measured by using electronic tracking data systems.

The following will be the point structure for Positive Site Characteristics:

Service	½ mile	1 mile	1 ½ mile	2 miles	2 ½ miles	3 miles

Applicants will receive negative points for the following detrimental site characteristics:

For the detrimental characteristics below, the Authority defines its determination of distance as the shortest distance, in a straight line, from the closest site boundary line of the proposed site to the closest site boundary line of the detrimental site characteristic to determine whether negative points will be assessed. When a detrimental site characteristic is located on a parcel shared by multiple businesses, the distance between the detrimental site characteristic and the proposed site is measured, in a straight line, from the closest site boundary line of the proposed site to the closest boundary line of the parcel on which the detrimental site characteristic is located. Detrimental site characteristics are determined as of the time of the site visit.

1. Sites within one-half (1/2) mile of an operating commercial beef/hog/chicken/turkey farm or processing plant. The Authority will use discretion in determining group types for comparison, which may include but are not limited to new construction, rehabilitation, garden style, and single family developments. Developments with a total development cost that deviates above or below the group average will be assigned point values. The point values have yet to be determined at this time.

Development Design Criteria

Projects awarded HOME funds must incorporate into the project all of the items chosen for points. REGULATORY AND/OR PROGRAMMATIC GUIDELINES

1. GUIDELINES

- a. Applicants must have identified a specific site or project and have site control of the property at the time of application submission.
- b. Sites submitted as part of an application must be used exclusively for the proposed project; sites cannot be part of a larger parcel which will be delineated at a later time.
- c. All projects are subject to HUD regulations and all other applicable federal and state requirements.
- d. 2018 SRDP Rental Application Tab Checklist (Exhibit 1) is provided to identify the required documentation and its placement in the HOME Rental Application Package.

2. PROPERTY STANDARDS

- a. Applicants must adhere to the written standards and specifications developed by the Authority as well as to all State and local standards, codes, ordinances, and zoning requirements in order to use SRDP funds for any activity.
- b. Applicants must adhere to all mandatory design criteria included in this Rental Manual as well as all development design criteria chosen for points.
- c. Where relevant, the housing must be constructed to mitigate the impact of potential disasters (e.g. earthquakes, hurricanes, flooding, and wildfires), in accordance with State and local codes, ordinances, or other State and local requirements, or such other requirements as HUD may establish.

3. SITE & NEIGHBORHOOD STANDARDS

Housing provided through the SRDP program must promote greater choice of housing opportunities.

- a. All housing must be suitable from the standpoint of facilitating and furthering full compliance with Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d), Title VIII of the Civil Rights Act of 1968, as amended "The Fair Housing Act" (42 U.S.C. 3601) and Equal Opportunity in Housing (Executive Order 11063).
- b. Sites proposed for new construction developments or rehabilitation that includes increasing the number of units in an existing development must:
 1. be adequate in size, exposure, and contour to accommodate the number and type of units proposed;
 2. have utilities available and have adequate streets to service the site;
 3. not be located in areas of minority concentration or in a racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents
- i. Minority concentration, for purposes of this section, shall be defined as census tracts where the percentage of the total minority population and/or the population of any minority group listed below is greater than or equal to twenty percentage points higher than the population of the same group for the State as a whole. Those proposals which are located in a census track where the percentage of the total minority population and/or the population of a minority group is greater than or equal to the percentages listed below are deemed areas of minority concentration:

Minority Group	Statewide	Equal To or Greater Than
Total Minority Population	33.8 %	33.8 + 20 = 53.8 %
Black or African American	27.9 %	27.9 + 20 = 47.9 %
American Indian and Alaska Native	0.4 %	0.4 + 20 = 20.4 %
Asian	1.3 %	1.3 + 20 = 21.3 %
Native Hawaiian and Other Pacific Islander	0.1 %	0.1 + 20 = 20.1 %
Hispanic or Latino	5.1 %	5.1 + 20 = 25.1 %

Source: U.S. Census Bureau, 2010 Census (this is still the most recent data)

To determine whether a project is located in an area of minority concentration, the Authority will use the 2010 U.S. Census Bureau data for the census track where the project is located:

- A. Go to www.factfinder.census.gov
- B. Click on "Advanced Search;" the option "Show me all" will appear - click that box.
- C. Click on the "Geographies" box from the choices on the left hand side of the page.
- D. From the *Select Geographies* box that appears, see the second bullet "Select a geographic type" drop-

- down box; choose “Census Tract – 140.” A new pull down box will appear.
- E. From the “Select a State” option, select “South Carolina” and the corresponding county and Census Tract for which your site is located.
 - F. Once you have selected your Census Tract, click the gray “Add to your selection” button at the bottom of the page. Close the *Select Geographies* box by selecting the “X” in the upper right hand corner.
 - G. Next to “Refine your search results,” type in topic or table name “QT-P6.” Two options will appear below the box once you have typed in the report number. Select the report related to “2010.” Click on the gray box to the right labeled “Go.”
 - H. A list of only one report should appear that reads “Race Alone or in Combination.” Click the check box next to this option; click on the table title itself to be taken to the report. You may also click on “View” or “Download” to see the report.
- ii. The two available exceptions to the prohibition against being located in an area of “minority concentration” as defined above are identified in 24 CFR 983.57(e)(3). They include:
1. The project is necessary to meet overriding housing needs that cannot be met in the housing market area.
 - To meet this exception, the overriding housing need must not be caused by the fact that discrimination on the basis of race, color, religion, sex, national origin, age, familial status, or disability renders sites outside areas of minority concentration unavailable. For example, the site is integral to the overall local strategy for the preservation or restoration of the immediate neighborhood and of sites in a neighborhood experiencing significant private investment that is demonstrably improving the economic character of the area (a “revitalizing area”).
 2. Sufficient, comparable opportunities exist for housing for minority families in the income range to be served by the proposed project outside areas of minority concentration.
 - To meet this exception, units may be considered comparable opportunities if they have the same household type (elderly, disabled, family, large family) and occupant type (owner/renter); require approximately the same tenant contribution towards rent; serve the same income group; are located in the same housing market; and are in standard condition. Additionally, there must be an assessment of the overall impact of HUD-assisted housing on the availability of housing choices for low-income minority families in and outside areas of minority concentration which must take into account the extent to which the following factors are present, along with other factors relevant to housing choice:
 - a significant number of assisted housing units are available outside areas of minority concentration;
 - significant integration of assisted housing projects constructed or rehabilitated in the past 10 years relative to the racial mix of the eligible population;
 - whether there are racially integrated neighborhoods in the locality;
 - programs are operated by the locality to assist minority families that wish to find housing outside areas of minority concentration;
 - minority families have benefited from local activities (*e.g.*, acquisition and write-down of sites, tax relief programs for homeowners, acquisitions of units for use as assisted housing units) undertaken to expand choice for minority families outside of areas of minority concentration;
 - a significant proportion of minority households have been successful in finding units in non-minority areas under the tenant-based assistance programs; and
 - comparable housing opportunities have been made available outside areas of minority concentration through other programs.

Units produced under this exception should produce a reasonable distribution of assisted units each year that, over a period of several years, will approach an appropriate balance of housing choices within and outside areas of minority concentration. An appropriate balance must be determined in light of local conditions affecting the range of housing choices available for low-income minority families and in relation to the racial mix of the locality's population.

- iii. Should a proposal be located in an area of minority concentration but is eligible for an exception, the Applicant must provide the Authority with an opinion letter that adequately addresses which exception applies and why.

The Authority will allow information gained from discussions with city/county officials to be part of the letter if clearly relevant to one of the listed exceptions. Documentation should be attached in support of the letter. For example, if a development is located in a designated "Revitalization Area," documentation evidencing the designation must be included. **Exhibit 4** provides a sample letter for use by Applicants.

4. promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons;
 5. not be one which is seriously detrimental to family life or in which substandard dwellings or other undesirable conditions predominate, unless there is actively in progress a concerted program to remedy the undesirable conditions.
 6. be accessible to social, recreational, educational, commercial, and health facilities and services, and other municipal facilities and services that are at least equivalent to those typically found in neighborhoods consisting largely of unassisted, standard housing of similar market rents;
 7. except for new construction housing designed for elderly persons, travel time and cost via public transportation or private automobile, from the neighborhood to places of employment providing a range of jobs for lower-income workers, must not be excessive.
- c. If the Authority determines any detrimental site characteristics exist on, adjacent to, or within unallowable distances from the site, the Authority may reject the application.
 - d. Complete and submit a Site and Neighborhood Standards Certification (Form M-40).

4. INCOME TARGETING

- a. HOME Income Targeting
 1. INITIAL OCCUPANCY - Rental housing will qualify as affordable only if the project meets the following requirements at initial occupancy:
 - i. Four or less HOME-assisted units – all HOME-assisted units occupied by families who have annual incomes that are sixty percent (60%) or less of the area median income, adjusted for family size;
 - ii. Five or more HOME-assisted units:
 - 1) At least twenty percent (20%) of the units occupied by families who have annual incomes that are fifty percent (50%) or less of the area median income, adjusted for family size;
 - 2) The remaining units must be occupied by families who have annual incomes that are sixty percent (60%) or less of the area median income, adjusted for family size;
 2. LONG TERM OCCUPANCY - Applicants are required to maintain the following occupancy requirements throughout the affordability period:
 - i. Four or less HOME-assisted units - all HOME-assisted units occupied by families who have annual incomes that are eighty percent (80%) or less of the area median income, adjusted for family size;
 - ii. Five or more HOME-assisted units:
 - 1) At least twenty percent (20%) of the units must be occupied by households with incomes at or below fifty percent (50%) of the area median income, adjusted for family size.
 - 2) The remaining HOME-assisted units may be occupied by households with incomes at or below eighty percent (80%) of the area median income, adjusted for family size.
- b. NHTF Income Targeting - All NHTF-assisted units are to be rented to extremely low-income tenants. Such tenants are those households with incomes at or below 30% AMI or the federal poverty line, whichever is greater.
- c. HTF Income Targeting - all HTF assisted units occupied by families who have annual incomes that are eighty percent (80%) or less of the area median income, adjusted for family size;
- d. Determining Income - An Applicant must determine that each potential tenant (individual or family) is income eligible by determining the family's anticipated annual income as defined in 24 CFR Part 5.
 1. Income must be examined and verified by using third party source documents evidencing annual income (e.g., wage statement, interest statement, and unemployment compensation statement) for the family. In verifying incomes for potential beneficiaries, Applicants should use the Authority's "Determining Income Manual" which can be downloaded from the Authority's website by going to this web address: <http://www.schousing.com/library/Monitoring/DetermineIncomeManual.pdf>.
 2. Income limits are updated annually by HUD. Current income limits can also be downloaded from the Authority's website: <https://www.schousing.com/Home/PartnerIncomeLimits>.

5. RENT LEVELS

- a. Rents amounts will be determined on an annual basis by HUD and are restricted for the length of the applicable affordability period.
- b. The HOME Final Rule and NHTF Interim Rule require approval of **all** rents on an annual basis for developments with HOME or NHTF-assisted units. The approval process will be handled by the Compliance Monitoring Department. Annual Rent Approval Form M-66 will be submitted to Compliance Monitoring staff to begin the approval process.
- c. Current Rent limits can be downloaded from the Authority's website: <https://www.schousing.com/Home/PartnerIncomeLimits>.
- d. The rents, as listed, include all applicable utilities. Utilities paid by tenants must be subtracted from the rents to determine the maximum allowable rent. Rents may increase or decrease from year to year. Applicants must use the Utility Allowances provided on the Authority's website ONLY. These utility allowances are based on the HUD Model. The Utility Allowances can be found by going to the following web address: <https://www.schousing.com/Home/UtilityAllowances>
- e. Rents are not necessarily representative of current market conditions for projects. The rents are calculated by HUD annually.

6. AFFORDABILITY REQUIREMENTS

All HOME and HTF assisted units must remain affordable throughout the twenty (20) year affordability period. All NHTF-assisted units must remain affordable throughout the thirty (30) year affordability period.

7. FIXED AND FLOATING UNITS

All units will be fixed not floating. Fixed units – specific units are designated as HOME, NHTF, or HTF assisted units and therefore, subject to each program's rent and occupancy requirements. The unit's designation never changes.

8. TENANT SELECTION PROCEDURES

There must be a formal written document that contains policies and criteria on how tenant selections are made. The document must:

- a. Be consistent with the purpose of providing housing for very low and low-income families;
- b. Be reasonable but adhere to Program eligibility and acceptance requirements;
- c. Give consideration to housing needs of families with federal preferences for admission to Section 8 and public housing;
- d. Detail that tenants will be selected in chronological order from a written waiting list;
- e. Establish a policy which ensures prompt written notification will be given should a tenant be rejected and the grounds for such rejection.

9. DISPLACEMENT

- a. A tenant is considered displaced if they permanently move from the property as a direct result of rehabilitation, demolition, or acquisition of a HOME or NHTF-assisted project.
- b. A tenant is **not** considered displaced if:
 1. The tenant is evicted for cause, assuming the eviction was not carried out to evade the Uniform Relocation Act (URA) obligations;
 2. The person has no legal right to occupy the property under State or local law (e.g., squatter);
 3. The tenant moved in after the application was submitted for funding and before commencing occupancy they were provided written notice of the planned project stating construction and the possible impact such construction may have on the person (e.g., the person may be displaced, temporarily relocated, or experience a rent increase), and that they would not qualify as a "displaced person" as a result of the project; and
 4. The Authority, with HUD's approval, determines they are not displaced.
- c. A temporarily displaced tenant is not considered displaced.

10. DISPLACEMENT MAY BE TRIGGERED IN THE FOLLOWING WAYS

- a. Before Application: A tenant moves permanently from the property before the Applicant submits an application for HOME or NHTF assistance and the Authority or HUD determines that the displacement was a direct result of the rehabilitation, demolition, or acquisition of the project (e.g., the Authority determines that the Applicant displaced tenants in order to propose a vacant building for assistance).
- b. After Application or Approval: A tenant moves permanently from the property after submission of the application because:
 1. The Applicant requires the tenant to move permanently because of the unit size or the unit is eliminated;

2. The Applicant fails to provide timely required notices to the tenant;
 3. The tenant is required by the Applicant to move temporarily and the Applicant does not pay all actual, reasonable out-of-pocket expenses or because the conditions of the move are unreasonable;
 4. The tenant moves permanently from the project because the tenant is not provided the opportunity to lease a suitable, affordable unit in the project. Such tenants are considered economically displaced;
 5. The tenant receives temporary relocation assistance beyond one year; therefore, are considered displaced and are eligible for permanent relocation assistance.
- c. The Authority HIGHLY ENCOURAGES Applicants to make EVERY effort to not trigger displacement.
1. Applicants should offer tenants the opportunity to lease an affordable suitable unit within the project if possible.
 2. All Applicants should become familiar with the URA and Section 104(d) of the Housing and Community Development Act (also known as the "Barney Frank Amendments" and any applicable relocation rules).

11. TENANT PROTECTIONS

- a. The Tenant Applicant is required to:

Compliance for units under the Violence Against Women Act (VAWA) went into effect December 16, 2016. Furthermore, Owners may have additional obligations under the VAWA Act to include permitting a tenant to move units, terminate a lease early, etc.

12. PROHIBITED LEASE TERMS

- a. Agreement to be sued: Agreement by the tenant to be sued, admit guilt or to a judgment in favor of the owner in a lawsuit brought in connection with the lease.
- b. Treatment of Property: Agreement by the tenant that the owner may take, hold, or sell personal property of household members without notice to the tenant and a court decision on the rights of the parties. This prohibition however, does not apply to an agreement by the tenant concerning disposition of personal property remaining in the housing unit after the tenant has moved out of the unit. The owner may dispose of this personal property in accordance with State law.
- c. Excusing the Owner from Responsibility: Agreement by the tenant not to hold the owner or the owner's agents legally responsible for actions or failure to act, whether intentional or negligent.
- d. Waiver of Notice: Agreement by the tenant that the owner may institute a lawsuit without notice to the tenant.

In accordance with 24 CFR Part 58 participants, recipients, owners, developers, sponsors or any third party partners CAN NOT take any physical actions on a site, begin construction, commit, expend, or enter into any legally binding agreements that constitute choice limiting actions for any HUD or non-HUD funds before the environmental review process has been completed and an “Authority to Use Grant Funds” has been received from HUD. **Any violation of the statutory regulation will result in the automatic de-obligation of a conditional commitment.**

- a. Applicants will commission environmental consultants to prepare environmental reviews that meet NEPA and NHTF environmental provisions for their applications. Applicants must use an Environmental Consultant/Firm from the Authority’s Approved Environmental Consultant List to complete the environmental review. The parties further agree that the provision of any federal funds to the project is conditioned on the determination to proceed with, modify or cancel the project based on the results of a subsequent environmental review. If no HUD funds are utilized in regard to this property, this provision shall be considered null and void.”
- e. If the proposed project is already underway **all work must cease immediately** once the application for funds has been made. - f. All Applicants should refer to the Authority’s Environmental Review Manual for further information.

19. LEAD-BASED PAINT

- a. Projects are subject to compliance with Lead-Based Paint Regulations. Effective September 15, 2000, the U.S. Department of Housing and Urban Development (HUD) issued a regulation designed to protect young children from lead-based paint hazards in housing that is financially assisted by the federal government or being sold by the government. The regulation, “Requirements for Notifications, Evaluation and Reduction of Lead-Based Paint Hazards in Federally Owned Residential Property and Housing Receiving Federal Assistance,” was published in the Federal Register on September 15, 1999. This regulation appears within title 24 of the Code of Federal Regulations as part 35 24 CFR Part 35. The requirements apply to housing built before 1978; the year lead-based paint was banned nationwide for consumer use. The regulation sets hazard reduction requirements that give a much greater emphasis than previous regulations to reducing lead in house dust. The regulation requires dust testing after paint is disturbed to make sure the home is lead-safe. Specific requirements depend on whether the housing is being disposed of or assisted by the federal government, and also on the type and amount of financial assistance, the age of the structure, and whether the dwelling is rental or owner-occupied.
 1. *Types of Housing Covered:*
 - i. Federally-owned housing being sold
 - ii. Housing receiving a federal subsidy that is associated with the property, rather than with the occupants (project-based assistance)
 - iii. Public housing
 - iv. Housing occupied by a family (with a young child) receiving tenant-based subsidy (such as a voucher or certificate)
 - v. Multifamily housing for which mortgage insurance is being sought

- vi. Housing receiving federal assistance for rehabilitation, reducing homelessness, and other special needs
- 2. *Types of Housing Not Covered:*
 - i. Housing built since January 1, 1978, when lead paint was banned for residential use
 - ii. Housing exclusively for the elderly or people with disabilities, unless a child under age 6 is expected to reside there
 - iii. Zero-bedroom dwellings, including efficiency apartments, single-room occupancy housing, dormitories, or military barrack
 - iv. Property that has been found to be free of lead-based paint by a certified lead-based paint inspector
 - v. Property where all lead-based paint has been removed
 - vi. Unoccupied housing that will remain vacant until it is demolished
 - vii. Non-residential property
 - viii. Any rehabilitation of housing improvement that does not disturb a painted surface
- b. All Applicants proposing projects subject to the Lead- Based Paint requirements must provide a copy of the lead based paint evaluation and include in the cost estimate the costs for the lead hazard reduction.

20. SECTION 504

Section 504 of the Rehabilitation Act of 1973 prohibits discrimination against persons with disabilities in the operation of programs receiving Federal financial assistance. HUD regulations implementing Section 504 contain accessibility requirements of housing as well as requirements for ensuring that the programs themselves are operated in a manner that is accessible to and usable by persons with disabilities.

New Construction projects with five (5) or more units must have a minimum of five percent (5%) of the units accessible to individuals with mobility impairments AND an additional two percent (2%) of the units accessible to individuals with sensory impairments.

21. SECTION 3

 - a. Projects assisted with HUD funds for construction and rehabilitation activities in excess of \$200,000
 - b. Contracts and subcontracts exceeding \$100,000 that were awarded in connection with projects assisted with HUD funds for construction and rehabilitation activities in excess of \$200,000.
- b. If a new construction or rehabilitation project is assisted with any HUD program funds in excess of \$200,000 but no single contractor or subcontractor is awarded more than \$100,000 in association with the project then only the organization that directly received the HOME and/or NHTF assistance is subject to comply with the Section 3 requirements concerning training, employment and contracting activities.
- c. If there are contracts and subcontracts awarded in conjunction with the Section 3 applicable project, then Section 3 requirements apply to the organization that directly received the HOME and/or NHTF funds and all the contracts and subcontracts for work awarded in connection with the project that are in excess of \$100,000.
- d. These include all contracts and subcontracts awarded in excess of \$100,000, even those not funded with Authority funds and those that are for non-construction related activities.
- e. The purpose of Section 3 of the Housing and Urban Development Act of 1968, as amended is to ensure that “the employment and other economic opportunities generated by Federal financial assistance for housing and community development programs shall, to the greatest extent feasible, be directed toward low and very low income persons, particularly those who are recipients of government assistance for housing.”
- f. To the greatest extent feasible, HOME participants and their contractors and subcontractors must provide opportunities for job training, employment, contracting and subcontracting to Section 3 residents and businesses. See 24 CFR Part 135 for regulations enacted in furtherance of Section 3.

22. MONITORING & COMPLIANCE

All projects are subject to HOME and NHTF compliance monitoring requirements. At a minimum, the owners of projects are responsible for conducting the following annually:

- a. Maximum rent and utility allowances must be reviewed and recalculated annually upon the anniversary of the lease renewal date. Updated rents are published annually by HUD and are provided on the Authority’s website.
- b. The HOME and NHTF Rules require approval of **all** rents on an annual basis for developments with such units regardless if rents are increasing, decreasing, or staying the same. The approval process will be handled by the Compliance Monitoring Department. Annual Rent Approval Form M-66 will be submitted to Compliance Monitoring staff to begin the approval process.

- c. HUD Utility Schedule Model. All utility allowance calculations on the Excel Spreadsheets as part of the HUD Utility Schedule Model must be provided. The Authority reserves the right to review all backup data used for calculations. HUD link: <http://www.huduser.org/portal/resources/utimodel.html>.
- d. The annual income or annual gross income of tenants must be reviewed and verified each year. Updated incomes are published annually by HUD and are provided on the Authority's website.
- e. The annual income definition found at 24 CFR Part 5: income is the gross amount of income of all adult household members that is anticipated to be received during the coming 12 month period.
- f. On-site inspections for compliance with the Uniform Physical Conditions Standards (UPCS) should be conducted by the owners:
 - 1. The Authority conducts periodic on-site compliance reviews throughout the affordability period to ensure compliance with HOME and NHTF rental program requirements. These reviews include, but are not limited to, occupancy requirements and property standards. Refer to the *Compliance Manual* located on the Authority's website for further compliance monitoring requirements.
 - 2. Rental projects with 10 or more units will be required to submit financial statements annually to determine the financial health of the project. Specifics will be determined upon release of guidance from HUD.

23. TERMINATED PROJECTS

- a. Any assisted project that is terminated before completion, either voluntarily or otherwise, constitutes an ineligible activity and any funds invested in the project must be repaid to the Authority
- b. The Authority allows Applicants ninety (90) days from the date of termination to repay the funds back to the Authority or risk future eligibility for funding and debarment from Authority administered programs.

24. STALLED PROJECTS

- a. Projects that do not progress as outlined in the Funding Agreement, fail to meet established deadlines and/or require extensions and/or waivers are considered stalled projects.
- b. One year from the commitment date, tangible, ongoing, and continuous construction must have started. Should this benchmark not be met, the project will be considered stalled.
- c. Projects in which construction stops for 60 days or more will be considered stalled, with the exception of those projects stopped by the locality for reasons beyond the owner/recipient's control.
- d. Projects not completed within three years from the date of project commitment **may be terminated** and all funds invested in the project must be repaid to the Authority.

25. AFFIRMATIVE MARKETING PLAN - steps consisting of actions to provide information and otherwise attract eligible persons in the housing market area to the proposed assisted housing without regard to race, color, national origin, sex, religion, familial status, or disability. The steps must include requirements (use of commercial media, use of community contacts, use of Equal Housing Opportunity Logo or slogan, and display of fair housing poster) and practices each Applicant will take in order to carry out affirmative marketing procedures such as:

- a. Informing and soliciting applications from persons in the housing market who are not likely to apply for the housing without special outreach. Include the special outreach planned for this particular project.
- b. Describe records that will be kept documenting actions taken to affirmatively market the program and units as well as records to assess the results, positive or negative, of the actions taken.
